M3302

Welcome

Thank you for choosing Mojawa Purra Flow.

Purra Flow is a bone conduction sports headphone designed for open-ear listening, real-time heart rate guidance, and multi-scenario training, including swimming.

What's in the Box

Mojawa Purra Flow ×1

Storage Pouch ×1

Magnetic charging/data cable ×1

User manual ×1

Product Overview

Getting Started

Power On/Off

Press and hold power button for 2 seconds

*Please fully charge the device before first use.

Bluetooth Pairing

1. Turn on the device
2. Enter pairing mode automatically (first use)
3. Select "Mojawa Purra Flow" on your device

Re-pairing / Enter pairing mode manually

When the device is already connected or not discoverable:

Power off state: press and hold the power button for 5 seconds

Power on state: press and hold the power button for 2 seconds to turn off, then press and hold for 5 seconds

- The indicator light flashes
- Device enters pairing mode

Connect a Second Device:

1. Disconnect from current device
2. Re-enter pairing mode
3. Pair with the second device
4. Reconnect first device if needed

First Bluetooth Device

Select Mojawa Purra Flow to connect on the second Bluetooth Device (Phone / Computer)

Swimming Mode

Mode Switching (Bluetooth ↔ MP3)

Before Swimming:

If no audio files are stored, transfer audio files to the device with the magnetic data cable.

Switch Mode:

Press once, then immediately press again and hold for 2 seconds.

Release the button when you hear: "MP3 Mode" or "Bluetooth Mode"

Note:

- Bluetooth is not available underwater. Use MP3 mode for swimming.
- Wear a swim cap over the device for a secure fit.

File Transfer

Connect:

Use the magnetic data cable to connect the device to a computer.

Supported Formats:

- MP3/WAV/AAC/FLAC/M4A/ APE, Up to 48 kHz/16-bit

MOJAWA APP

Download:

Search "MOJAWA" in the app store.

Features:

- Sound Equalizer set
- Device settings management
- Firmware updates
- Heart rate data:
 - Heart rate zone statistics
 - Heart rate trend curves
- AI Fitness Chat for interactive guidance

(availability may vary by version)

Notes:

- Do not disconnect the cable during file transfer
- If no audio files are stored, transfer files before using MP3 mode
- Convert unsupported formats to MP3 before use

Notes:

- Available features may vary by model. Check within the app for actual functionality.
- Firmware upgrade requires battery level above 20%.
- If battery is below 20%, charge the device and reconnect before updating.

Real-Time Heart Rate Guidance

Purra Flow provides real-time heart rate monitoring to support training.

Features:

Heart rate zone tracking

Voice alerts for high heart rate

Usage Tips:

Ensure sensor is firmly in contact with skin

Wear correctly for accurate measurement

Wear a swim cap over the device for more accurate heart rate measurement during swimming.

Important Notice:

This feature is for fitness reference only and not intended for medical use.

For medical evaluation, consult a qualified professional.

Charging & Battery

Charging time: ~90 minutes

Battery life: up to 15 hours (at 75% volume)

Use 5V $\equiv$ 500mA power adapter

*Keep charging port dry.

*During charging, the indicator light solid orange. Once fully charged, the indicator light stays solid white for a few seconds before turning off. Unplug the power promptly after full charge.

*Battery performance and charging time may be affected when used in extreme high or low temperature.

*Special music types, enhanced scene-mode sound effects settings, and battery life decay may reduce the battery life. Please refer to the actual usage.

Battery Specs

Capacity: 245mAh, 0.93Wh, 3.8V

Type: Lithium-ion battery

Storage and Maintenance

The headphones should be stored in a cool and dry place. They should be used at an ambient temperature between 0°C (32°F) and 45°C (113°F), and charged at an ambient temperature between 10°C (50°F) and 40°C (104°F). The battery lifespan may be shortened if operated in excessively cold, hot or humid environments.

The headphones feature IP68 waterproof performance. However, it is recommended to avoid contact with soap, shampoo, conditioner, lotion, perfume and other corrosive substances. Please clean the headphones immediately after use during sports. Do not expose the headphones to high-speed water flow or water vapor, and avoid dropping or impact. The waterproof performance is not permanent and may gradually degrade over time.

*Before first use, please fully charge the headphones.

*If the product will not be used for an extended period, charge it once every three months to prolong battery life.

*When connecting the power adapter, keep the charging port away from metal surfaces. Ensure the charging port is dry before charging to reduce the risk of damage to the headphones and charging cable.

Safety and Certification

Use manufacturer(MOJAWA)-designated accessories and supplies only.

- The headphones should be kept out of the reach of children and pets to avoid swallowing it in accident. There is a Li-polymer battery in the headphones, which can potentially cause a hazard. If the part is swallowed, seek medical care immediately. The unused headphones should be kept out of the reach of children and pets.

- Do NOT use the headphones at a high volume for an extended period.

To avoid hearing damage, use the headphones at a comfortable, moderate volume level. Your hearing may be damaged and the sound may also be distorted at a super high volume. Turn the volume down on the headphones before placing it in your ears, then turn the volume up gradually until you reach a comfortable listening level.

- Use caution and follow applicable laws regarding the use of phone and headphones if using the headphones for phone calls while driving. Some jurisdictions impose specific limitations on the use of such products while driving. Do not use the headphones for any other purposes while driving.
- When you need to use the headphones while engaging in an activity needing concentrated effort, for example, riding a bicycle, or walking in or near the traffic, a construction site or railroad, please beware of your safety and follow relevant laws regarding the use of headphones.
- This product contains small parts which may be a choking hazard. It is not suitable for children under age 3.
- This product contains magnetic material. Consult your physician on whether this might affect your implantable medical device.
- Do not make unauthorized alterations to this product.
- Use this product only with an agency approved power supply that meets local regulatory requirements (e.g., UL, CSA, VDE, CCC).
- Do NOT expose products containing batteries to excessive heat (e.g. from storage in direct sunlight, fire or the like).
- Do not expose this product to hot temperature, smoke, or fume lest it may catch fire.
- Do not charge this product during thunder and lightning.
- Do not throw this product into fire lest the battery may explode when overheated.
- Please avoid letting the magnetic end of the charging cable attach to metal objects or come into contact with liquids, as it may cause damage.

Frequency Range	Max.Transmit Power
2402-2480MHz	< 10 dBm (EIRP)

FCC ID

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) this device must accept any interference received, including interference that may cause undesired operation.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement.

The device can be used in portable exposure condition without restriction.

IC Statement:

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s).

Operation is subject to the following two conditions:

(1) This device may not cause interference.

(2) This device must accept any interference, including interference that may cause undesired operation of the device.

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

(1) l'appareil ne doit pas produire de brouillage, et

(2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

This Class B digital apparatus complies with Canadian ICES-003.

Cet appareil numérique de la classe B est conforme à la norme NMB-003 du Canada.

CAN ICES-003 (B)/NMB-003(B)

Radiation Exposure Statement: The product complies with the Canada portable RF exposure limit set forth for an uncontrolled environment and is safe for intended operation as described in this manual.

Déclaration d'exposition aux radiations: Le produit est conforme aux limites d'exposition pour les appareils portables RF pour les États-Unis et le Canada établies pour un environnement non contrôlé.

NB:

Hereby, MOJAWA declares that this product is in compliance with the essential requirements and other relevant provisions of Directive 2014/53/EU. You can find the Declaration of Conformity on <https://mojawa.com/pages/eu-declaration-of-conformity>

CB/CE:

Warning

To avoid replacement of a battery with an incorrect type.

Don't disposal of a battery into fire or a hot oven, or mechanically crushing or cutting of a Battery.

Don't leaving a battery in an extremely high temperature surrounding environment.

To avoid battery subjected to extremely low air pressure.

To prevent possible hearing damage, do not listen at high volume levels for long periods.

The symbol indicates DC voltage.

RECYCLING This product bears the selective sorting symbol for Waste electrical and electronic equipment (WEEE).

This means that this product must be handled pursuant to European directive 2012/19/EU in order to be recycled or dismantled to minimize its impact on the environment.

The power delivered by the charger must be min 2.5 Watts required by the radio equipment, and max 5 Watts in order to achieve the maximum charging speed. The USB charging cord supplied is only for charging the unit. It cannot be used for data communication or charging other devices.

WARRANTY CARD

Your headphones are covered by a warranty. Visit our website at <https://www.mojawa.com/pages/warranty-claim> for details of the limited warranty.
