How to remove the Speakers

Step 1 The headset is held between a double layer inside the Headband. You can gently take the speakersout of its pocket.

Step 2 You will see a small opening at the rear of the Headband. Continue to ease the speakers towards this opening.

-2-

Step 3 Repeat step 1 for the additional speaker located at the opposite side of the Headband.

Precautions

•Do not expose Headband to liquid or moisture.
•Do not attempt to tamper with Headband by dropping, disassembling or opening.
•Remove the headset module before washing the Headband.
•Keep the Headband away from fire.
•Do not store the Headband near acidic or alkaline material.

Once the electronics are completely removed: Machine wash cold,air dry (Do NOT tumble dry).

-3-

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received, including interference that may cause undesired operation.
This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

NOTE:
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.
These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.
However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the followingmeasures:
— Reorient or relocate the receiving antenna.
— Increase the separation between the equipment and receiver.
— Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
— Consult the dealer or an experienced radio/TV technician for help.
This device complies with FCC radiation exposure limits for portable requirement. The device can be used in portable exposure condition without restriction.
FCC ID: 2AZDW10W01
