Back View Schematic Diagram

LED Ambient Light (On/Off): Short-press the button to turn the LED ambient light on or off; the mode cycles alternately.

When Refrigeration is On:
The fan keeps running continuously.

When Refrigeration is Off:
The fan stops running.

Refrigeration (On/Off): Long-press the button to turn the refrigeration function on or off; the mode cycles alternately.

Refrigeration Function Description

Power-on State: The refrigeration function runs for 5 seconds and then stops.

Standby State: The refrigeration function remains inactive.

Operating State: The refrigeration function starts automatically when a mobile phone is placed on it for charging.

Fully Charged State: The refrigeration function stops automatically. Power-on with Charging

Device Connected: The refrigeration function keeps running continuously.

Accessories List

Main Unit x 1
Instruction Manual x 1

Type-C Charging Cable (1m) x 1

Air Vent Clip x 1

Nut x 1

Product Introduction

Product Specifications

Name:
Wireless Car Charger

Mobile Phone Output:
25W (max)

Product Dimensions (Bare Unit):
68mm*68mm*45mm

Effective Wireless Charging Distance (for Mobile Phones):
 $\leq 3\text{mm}$

Input:
15V=3A

Conversion Efficiency:
60%-80%

Operating Frequency:
110-360KHz

Material:
ABS + Silicone

Frequently Asked Questions

Why is this charger not working?

- (1) Please ensure that your mobile phone supports wireless charging.
(2) Please connect to a power source using the original charging cable before use.
(3) Please make sure there are no metallic materials, magnetic objects, credit cards or pop sockets between your phone and phone case.

Why is fast charging not working?

- (1) Please use a PD 45W or higher car charger adapter. The maximum power is 25W, and the refrigeration function can be activated.
(2) Please connect to a power source with the original charging cable before use.
