Air Cool Wireless Charger

Instruction Manual

Diagram of angle regulation

Operating Instructions

- This product can wirelessly charge three devices simultaneously: mobile phones, watches, and wireless headphone charging cases that support wireless charging.
- Please connect this wireless charger to a power adapter using a Type-C fast charging cable and turn on the power.
- Place your mobile phone on the mobile phone charging area, and it will start charging automatically.
- Place your watch on the watch charging area, and it will start charging automatically.
- Place your wireless headphone charging case on the headphone charging area, and the charging case will start charging automatically.

Adapter Selection

The air-cooling function can only be activated with the aid of a PD adapter with power above 45W. The maximum power for mobile phone charging is 25W.

● Ambient Light (Warm White)

Adjustable ambient light brightness
Power on: breathes once
Standby: Light off

●Instructions to Control Ambient Light

Single click: Circularly switch (Low brightness / High brightness / Light off. If no operation for more than 10 seconds, a single click will turn off the light directly.

●Instructions to Control AirCool
Long press: Circularly switch (Turn on / Turn off AirCool). It has memory function when powered on (consistent with the last on/off status).

● AirCool Heat Dissipation Fan

Power on: The fan runs for 5 seconds and stops when no phone is placed (automatically turns on when a phone is present).

Standby: Fan stops (AirCool off).

Charging: Fan keeps running (AirCool on).

Fully charged: Fan stops automatically (AirCool off).

● Indicator Light (White/Green)

Indicator Instructions

Mode	Indicator Light (White/Green)
Power-on	Turns white, then green, then white again, stays on for 3 seconds and then off.
Standby	Light off
Headphone Charging Case Charging	Green light on for 5 seconds
Fully Charged	No change in indicator light.
Mobile Side FOD Protection	White light flashes continuously until the abnormal state is cleared, and the AirCool stops working.
Headphone Side FOD Protection	Green light flashes continuously until the abnormal state is cleared.
AirCool enabled	White light stays on for 10 seconds then turns off
AirCool disabled	Fan stopped, No indicator light

Product Specifications

Product Name:
Air Cool Wireless Charger

Product Dimensions:
114mm*110mm*158mm

USB-C Input:
12V≈3.75A 15V≈3A

Operating Frequency:
110-360KHz

Conversion Efficiency:
70%-80%

Mobile Phone Output:
5W/7.5W/10W/15W/25W(Max)

Watch Output:
2.5W(max)

Headphone Output:
5W(max)

Effective Wireless Charging Distance (for Mobile Phone):
≤3mm

Material:
ABS+Silicone + Aluminum Alloy

Precautions

Applicable Devices
Please check if your mobile phone supports wireless charging. This product supports fast wireless charging, which realizes short-distance wireless power transmission through coil induction.

Warning!

Donot place metal debris or magnetic cards on the charging pad, as this may cause the charger to heat up!
When a foreign object alarm is triggered, remove the foreign object immediately! Slight heating is a normal phenomenon; the mobile phone battery will generate heat during charging!
Do not place the charger near fire sources or in corrosive environments!

FCC Warning Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement

The antennas used for this transmitter must be installed to provide a separation distance of at least 20 cm from all persons and must not be co-located for operating in conjunction with any other antenna or transmitter.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1)This device may not cause harmful interference.

(2)This device must accept any interference received, including interference that may cause undesired operation.
