Solder Board-Component View 2	 A photograph of a small, square, black printed circuit board (PCB) component. The component has a gold-colored central area with various electronic components and solder joints. It is placed on a blue textured surface next to a metal ruler. The ruler has markings in centimeters (0 to 10) and millimeters (0.5 mm to 10 mm).
Solder Board-Component View 3	 A photograph of a small, square, black printed circuit board (PCB) component. The component has a green central area with various electronic components and solder joints. It is placed on a blue textured surface next to a metal ruler. The ruler has markings in centimeters (0 to 8) and millimeters (0.5 mm to 8 mm).

Solder Board-Component View 6	 A photograph showing a small, square, white component with a gold-colored border, mounted on a blue textured surface. The component has a small silver solder point in the center. A metal ruler is placed vertically to the left of the component, showing a scale from 1 to 8 cm. A horizontal ruler is placed below the component, showing a scale from 0 to 8 mm.
Solder Board-Component View 7	 A photograph showing a small, rectangular, green printed circuit board (PCB) mounted on a blue textured surface. The PCB has various electronic components, including a central chip, resistors, and a USB connector. A metal ruler is placed vertically to the left of the component, showing a scale from 1 to 8 cm. A horizontal ruler is placed below the component, showing a scale from 0 to 7 mm.

	 Top view of a green PCB assembly. The board is populated with various components including a large black IC labeled 'HDB029 C30W41AM 1846S307', a silver circular component, and several smaller surface-mount components. Labels on the board include 'ST110-25M-F2 V3.2', 'CND', 'TXD', 'VCC', 'RXD', 'AL5', 'SX8K1', and 'A938L'. The board is resting on a blue textured surface.
Solder Board-Component View 8	 Solder board-component view of the PCB assembly. The board is shown next to a ruler for scale. The ruler has markings in centimeters (0 to 9) and millimeters (0.5 mm to 9 mm). The board is resting on a blue textured surface.

Solder Board-Component View 9	 A photograph of a blue printed circuit board (PCB) component, labeled '9', showing its soldered side. The board is rectangular with a large silver-colored metal pad in the center. It features various electronic components, including a small green integrated circuit (IC) on the left, a multi-pin connector on the right, and several smaller components and solder joints. The board is placed on a blue textured surface next to a metal ruler for scale. The ruler shows centimeters (0 to 10) and millimeters (0.5 mm to 11 mm).
Solder Board-Component View 10	 A photograph of the same blue PCB component, labeled '10', showing its soldered side from a different angle. This view highlights three blue electrolytic capacitors with white text 'RTD 5.5V2.3F' and a small circular component. The large silver-colored metal pad is also visible. The board is placed on a blue textured surface next to a metal ruler for scale. The ruler shows centimeters (0 to 9) and millimeters (0.5 mm to 11 mm).

Solder Board-Component View 11	 A photograph of a blue printed circuit board (PCB) component, labeled 'Solder Board-Component View 11'. The component is rectangular with various electronic components, including a large black integrated circuit (IC) in the center, a USB connector on the left, and a small blue component at the top. It is placed on a blue textured surface next to a metal ruler for scale. The ruler shows centimeters (0 to 11) and millimeters (0.5 mm to 13 mm).
Solder Board-Component View 12	 A photograph of a blue printed circuit board (PCB) component, labeled 'Solder Board-Component View 12'. The component is rectangular with various electronic components, including a large black integrated circuit (IC) in the center, a USB connector on the left, and a small blue component at the top. It is placed on a blue textured surface next to a metal ruler for scale. The ruler shows centimeters (0 to 11) and millimeters (0.5 mm to 13 mm).
