Board View 3

Solder
Board-Component
View 1

Solder Board-Component View 2	 A photograph of a blue printed circuit board (PCB) component, labeled 'View 2', showing its solder side. The board is populated with various electronic components, including integrated circuits, capacitors, and connectors. It is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows dimensions from 0 to 100 mm.
Solder Board-Component View 3	 A photograph of the same blue PCB component, labeled 'View 3', showing a different side. This view highlights larger components like a heat sink and various connectors. It is also placed on a blue textured surface next to a black ruler with white markings in millimeters, showing dimensions from 0 to 100 mm.

Solder Board-Component View 4	 A photograph of a blue printed circuit board (PCB) with various electronic components, including integrated circuits, capacitors, and connectors. The board is positioned next to a black ruler with white markings in millimeters. The ruler is oriented vertically on the left side of the board, with markings from 0 to 100 mm visible. The board itself has a complex layout with multiple layers of copper and solder points.
Solder Board-Component View 5	 A photograph of the same blue PCB from a different angle, showing the underside or a different side. This view highlights the solder joints and the placement of components on the reverse side. A black ruler with white markings is again present for scale, with markings from 0 to 100 mm visible. The board's layout and components are clearly visible against the blue background.
