THE ATOMISER CONNECT

YOUR PUREST AROMATHERAPY EXPERIENCE

AROMATHERAPY DIFFUSER USER MANUAL
PLEASE READ CAREFULLY BEFORE USE

Overview

Main body

1. Diffusion Hole
2. Metal Cover
3. Diffusion Head
4. Essential Oil Bottle
5. LED Light
6. Ceramic Body
7. On/Off Button, Timer
8. Light
9. Pod 1 Mist Control
10. Pod 2 Mist Control
11. Charging Port
12. Mode Indicators
13. Battery Indicator
12. Diffusion Head Top Cover
13. Air Inlet
14. Essential Oil Tube
15. Charging Cable
16. Essential Oil Bottle Opener

Operation Instructions

1. Take off the metal cover and remove the paper cord. Pull up the diffusion head. Hold the essential oil bottle and remove the head anti-clockwise to remove.

2. Insert the essential oil bottle opener between your Aromatherapy Associates essential oil bottle and remove the plastic dropper and press to pop the dropper off.

*Only using 10% power adapter

3. Insert the diffusion head directly into your Aromatherapy Associates pure essential oil bottle. Ensure it is tight. Rotate the diffusion head clockwise to secure.

4. Insert the diffusion head & bottle into your chosen pod, ensuring diffusion head air inlet is lined up with the symbol and grooves. Place the metal cover back on top.

5. Insert the charging cable into a 2A power adapter and connect to the USB port to charge. Once it is fully charged, the cable can be removed.

0-100% Charging time: 8H
Working time: Standard mode up to 16H
Boost mode up to 9H

6. Press the On/Off button to turn on the device. Default setting time duration. Press the second button to control pod 1 & press the third button to control pod 2 separately.

Note:

- For best results & to be eligible for warranty, use only with Aromatherapy Associates Pure Essential Oil Blends. Artificial fragrance or impurities may harm the unit.
- Always unplug the product from the electrical socket when not in use.
- Do not remove the diffusion packaging before the device whilst actively diffusing.
- Keep on a stable and flat surface. Carpet, cushions or other uneven surfaces might affect the ventilation system.
- The diffusion head tops can be used to hold your favorite essential oil bottle. Ensure to remove tube from the diffusion head and cut the flat end from the top as the tube pipe part is blocked for better oil absorption.
- Do not use a 1A power adapter as the input power might not be enough to charge the diffuser.

Setting Instructions

On/Off, Timer & Light

- Press the first button once to turn on. Default setting is 30mins (30M indicator) diffusion from the last time it was switched off.
- Press the button twice to turn on for 1 hour (1H indicator).
- Press the button a third time to turn on for 3 hours (3H indicator).
- Press the button a fourth time to switch the diffuser off.
- Hold the button for 3 seconds to turn off the light. Hold for another 3 seconds to turn light back on.

Mist Output

Pod 1

- "S" standard mode will automatically be selected when unit is turned on. (On 13s / 47s)
- Press once to switch to "B" Boost mode. (On 46min / 6min)
- Press the button a second time to turn off pod1 with "S" Standard mode.
- Press the button a third time to turn on pod1 with "S" Standard mode.

Pod 2

- "S" standard mode will automatically be selected when unit is turned on. (On 13s / 47s)
- Press once to switch to "B" Boost mode. (On 46min / 6min)
- Press the button a second time to turn on pod2 with "S" Standard mode.
- Press the button a third time to turn off pod2 with "S" Standard mode.

- Memory function – Keep your last favourite setting preference when you turn on/off the device. The memory will stay until the Atomiser Connect runs out of battery.

Battery

- Charging (red indicator light)
- Full charge (green light only)
- Low Battery (flashing indicator light)

Power mode is recommended.

Bluetooth App Connection

- Download the app from App Store or Google Play.
- Turn on the device to connect to the app for the first time.
- Once you are connected, the light will flash twice to signal connection.
- Hold the second button for 3 seconds to remove the existing Bluetooth connection.
- Use the app to change the settings, create diffusion schedules, use the guided therapeutic programmes, learn more about our pure essential oil blends.

Press the pod1 & pod 2 buttons simultaneously to activate a factory reset.
This will remove all schedules which have been created through the app.

FCC : This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) This device must accept any interference received, including interference that may cause undesired operation.

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.

Cleaning & Maintenance

When you put it back, make sure the inner lid cap hole is aligned with the nozzle air inner tube.

1. Fill an empty Aromatherapy Associates essential oil bottle or the original bottle provided with rubbing alcohol under 75% concentration.

2. Insert into the Atomiser. Shake the bottle for 3 seconds. Remove the bottle.

3. Rotate the nozzle cap anti-clockwise to remove it from the bottle. Place the cotton bud into the rubbing alcohol and use it to gently wipe inside the nozzle.

Note:

- Never use with rubbing alcohol over 75% concentration as it may damage your Atomiser Connect.
- Alcohol is flammable. Ensure room is well-ventilated to prevent the risk of fire.
- For best results, clean the diffuser head 1-2 times per week.
- Do not use the diffuser head if it is damaged or not properly sealed. Two are provided with the machine and are available to be purchased individually. If the same diffuser head is to be used for different essential oil blends, we recommend cleaning the diffusion head and changing the oil tube before switching.
- Different pure essential oils will diffuse at different rates due to the molecular make-up of the essential oils. For example, blends that contain more viscous oils such as Sandalwood will diffuse at a slower rate.
- Ensure the essential oil bottle is closed when not in use to prevent damaging the unit components.
- This product contains battery,make sure to use the device within 0°C - 40°C, otherwise it might affect the battery life or cause a fire.
- Make sure to charge the device once within 3 months,it is recommended to maintain a certain amount of battery level or it might affect battery health.

Mandatory Safety

- Never use the product for purposes other than those listed in this manual.
- Read the instruction manual before using this product.
- Remove all accessories before first use.
- Use only the charging cable in the package to avoid damage to the product.
- If any essential oils are spilt, wipe off immediately to avoid discoloration of the exterior of the product or the furniture.
- The product must be used in the way with the recommended vaporizing medium.
- The use of other substances may give rise to a toxic or fire risk.
- This product is not a medical device. Directly inhaling the mist from the spout is not recommended.
- Individuals who are pregnant or suffering from a medical condition should seek advice before use. Stop using the product and open the windows for ventilation if you start to feel uncomfortable.
- Essential oils are highly concentrated and should always be handled with care, including the amount that is used.
- Do not handle the main unit and outlet with wet hands, or let water or other liquids spill onto them, as this may result in electric shocks.
- To avoid fire, electric shock, injury or damage, do not place the product in the areas listed below:
  - Environments exposed to direct sunlight, to high temperatures, and keep away from sources of ignition.
  - Pressurised objects and combustibles.
- It is not recommended to use viscous single essential oils, such as Sandalwood or Vetiverin as their over (not in a blend) as they could clog the machine.
- Always ensure the essential oil bottle is closed and not just put on. Children have the option to leave the room should they choose to.
- Only use Boost mode for 30 minutes at a time when time is within 0°C - 40°C, otherwise it might affect the battery life.
- When the product is at the end of its life, we recommend disposal at a collection point for the recycling of electrical and electronic equipment, rather than with household waste.

Warning

- This appliance can only be used by children aged 8 years and above and persons with reduced physical, sensory or mental capabilities or lack of experience and knowledge if they have been given supervision or instruction concerning the use of the appliance in a safe way and understand the hazards involved. Children should be properly supervised to ensure they will not play with the appliance. Cleaning and user maintenance should not be done by children without supervision.
- Stop using the device immediately if you smell a strange or unusual smell, or if you hear any unusual sounds or if any other anomalies occur.
- Do not attempt to disassemble the product or use it if it is damaged or deformed.
- When the product is at the end of its life, we recommend disposal at a collection point for the recycling of electrical and electronic equipment, rather than with household waste.

Product Dimensions

Product Name:	The Atomiser Connect	Main unit weight:	100g
Product code:	BL082	Coverage Area:	Up to 120m²
Product Size:	Ø130mm(D) x 135mm(H)	Environment:	Indoor
Material:	Ceramic + Metal + PP	Run Time:	30mins /1H/3H
Power:	3.6V ⎓ 5200mAh 18.72Wh, input: 5V ⎓ 2A 10W	Design:	USA
Manufacturer:	Bloomy Lotus LLC	Made in China	

Product Warranty

Thank you for your purchase. This product carries a limited 12-month warranty from proof of purchase on manufacturer defects. Please contact Aromatherapy Associates Customer Services on info@bloomylotusaromatherapyassociates.com or call +44 (0)2083697020 for enquiries or product maintenance:

Proof of purchase will be required. Warranty does NOT apply for:

- Damage of accessories due to extended use/deprecation over time.

Troubleshooting

If you experience unsatisfactory operations, please follow our troubleshooting guidelines listed below:

Symptom	Possible Cause	Solution
Diffuser does not turn on	Power cord /USB not connected correctly	Disconnect Power cord /USB and re-connect carefully
	Using a 1A power adapter to charge the diffuser	Change to a 10% power adapter to charge the diffuser
	Diffuser has run out of battery.	Plug the charging cable into the charging port and into a power socket or USB port to charge
The device is on but there is no scent	Diffusion head did not seal properly.	Remove the diffusion head and reinstall correctly. If Mode is on but the diffusion air inlet is obyed to the bottom.
	The oil bottle is empty or the oil level lower than the end of the oil pipe.	Change to a new essential oil bottle, add more essential oil into the bottle or change the pipe.
	Using a single essential oil that is too viscous.	Clean the diffusion head & swap to using a blend or a less viscous essential oil blend.
	Oil pipe did not attach securely to the diffusion head.	Reinsert the oil pipe into the diffusion head correctly.
	Choosing a wrong pod with empty bottle for diffusion.	Turn off the current pod and choose the correct one for diffusion.
