EUT UNCOVER VIEW 1

A photograph of a disassembled white electronic device, likely a portable music player, showing its internal components. The device is laid out on a blue surface. To the left of the device is a white plastic case. In the center is the internal circuit board, which includes a battery, a microcontroller, and various electronic components. To the right of the circuit board is a small red and black component, possibly a speaker or a microphone. A ruler is placed horizontally below the device for scale, showing measurements in centimeters and millimeters.
