

BOOMPODS® soundflare

The sustainably made party speaker

But how is this possible? I mean, this was plastic waste!

Yes, But when it comes to the most common used materials we're collecting, for instance PET bottles, this waste already had food grade during its first lifecycle. After collecting it, our local teams are washing and sorting the plastic which is then shredded into flakes. After this step, the innovative technology we have developed with the Swiss University of Applied Sciences OST, takes over: We transform these flakes into pellets in a pure mechanical process, neither chemicals nor virgin plastics are being added. We use the latest technology and apply physical methods (vacuum, decompression, degassing, melting) to transform waste and extend the molecular chains of these wasted polymers. The result is a strong, clean and reliable material.

The recycled ocean plastic used to make this product may have traces of the wide mix of types of plastics collected. This can allow some minor black spots and imperfections to appear upon the surface. These are normal and do not affect the performance of the product. The material is unique in character and happy not to be in the Sea.

How to Connect

Switch ON: LED will flash,
Choose "soundflare" from your device menu,
Wait until you hear voice prompt "Connected",
You are now connected.

Product Name	soundflare
Type	Water resistant Bluetooth speaker
Compatibility	Devices with Bluetooth 5 or lo wer
Warranty	12 months
IPX Rating	IPX 6
Features	Waterproof, Light modes, App Volume, Skip Track, Dual pairing
Play Time	5H
Cables	USB-C to USB-A
Battery	700mah
Chargetime	2.5h
frequency range	2.4-2.480 GHZ
Sensitivity	-42±3dB, omni-directional, S.N.R≥60dB
Mic frequency range	20hz-20khz
Working Current	≤ 30mA (minimum volume)
Working Voltage	DC 3-4.2 V
Speaker	3W waterproof high qualitydriver.
Bluetooth	V5.3

The Declaration of Conformity can be found at:
<https://www.boompods.com/product/soundflare>Hereby, BoomPods declares thatthe radio equipment type [Speaker with Bluetooth] is in compliance with Directive 2014/53/EU.

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

This device may not cause harmful interference, and

This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

Reorient or relocate the receiving antenna.

Increase the separation between the equipment and receiver.

Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
