(3) Always remove exhausted batteries from the car and the transmitter.
(4) Make sure the main switch is set to OFF before installing the battery pack into the car body.
(5) Batteries must be inserted with the correct polarity.
(6) Non-chargeable batteries shall not be recharged.
(7) Do not short-circuit the batteries.
(8) Always remove the batteries from the car and the transmitter after playing.
(9) Never throw the batteries into fire to avoid explosion or leakage.
(10) Do not mix batteries from different producers or new and old batteries.
(11) You should only use batteries of the same or equivalent types as recommended.
(12) Check the batteries on a regular basis to avoid leakage.
(13) Keep this manual well for future reference as it contains important information about this product.

For best stunt performance, make sure the tires are clean. If the tire is dirty, gently wipe it with a clean damp cloth. Do not soak toys in water.

MADE IN CHINA

FCC Warnning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection againstharmful interference in a residential installation. This equipment generates, uses and can radiateradio frequency energy and, if not installed and used in accordance with the instructions, maycause harmful interference to radio communications. However, there is no guarantee thatinterference will not occur in a particular installation. If this equipment does cause harmfulinterference to radio or television reception, which can be determined by turning the equipmentoff and on, the user is encouraged to try to correct the interference by one or more of thefollowing measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1)This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
