EN: LEGAL DISCLAIMER 2022

This product is intended to track and report upon the movement of the parts of the body to which it is attached, for fitness tracking and information purposes only during the carrying out of exercise. It is not absolutely accurate, intended only to give general estimations, and no reliance should be placed on the information it generates. This product is not, and is not intended, to be used for any medical purpose, including the diagnosis, prevention, monitoring or prediction of, or provision of information on, of any injury or potential injury. Neither is the information generated by this product intended to be used in any process for deciding the content of any exercise program. In addition, this product does not, and is not intended to, protect you from injury.

Before starting or modifying any exercise program consult a medical professional, to ascertain risks arising from that exercise, and what you should do to allow you to conduct that exercise safely. This product is not a substitute for taking care when exercising. Be careful and attentive while exercising. Stop exercising immediately if you feel pain, disorientated, faint, dizzy, exhausted, off-balance or short of breath, you get a headache, you experience a blackout, you feel like you are going to lose consciousness, your vision is affected, you are sick or feel sick, you are bleeding or become bruised, you experience a seizure or fit, or you have trouble understanding people or things, and seek immediate medical attention. By exercising, you assume the risks inherent in exercising, including any risk any injury that may result from exercising.

WE SHALL NOT BE LIABLE FOR ANY INJURY YOU SUSTAIN WHILE EXERCISING, WHETHER YOU ARE USING THIS PRODUCT IN CONJUNCTION WITH ANY EXERCISE, OR WHEN CONDUCTING ANY EXERCISE PROGRAM YOU HAVE DECIDED TO CONDUCT, OR NOT. THIS DOES NOT EXCLUDE, AND IS NOT INTENDED TO EXCLUDE, OUR LIABILITY WHERE WE HAVE BEEN NEGLIGENT OR BREACHED APPLICABLE LAW.

The information gathered by this product (including its associated software) does not contain any personal data. The information gathered by this product (including its associated software) may be transmitted to or through our information technology facilities, and stored in our facilities or those provided by our service providers, and we may use this information for our own research or commercial purposes, or pass this information to other persons for their research or commercial purposes.

By using this device you acknowledge, accept and agree to these terms.

Head Impact Trauma Limited. Registered Company; SC564020.

Product Name: HIT Impact V1

Model Number: HIT-V1

FCC ID: 2A38JHIT-V1

FCC Warning

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- (1) This device may not cause harmful interference, and
- (2) This device must accept any interference received, including interference that may cause undesired operation

This device has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This device generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this device does cause harmful interference to radio or television reception, which can be determined by turning the device off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the device and receiver.
- Connect the device into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment
