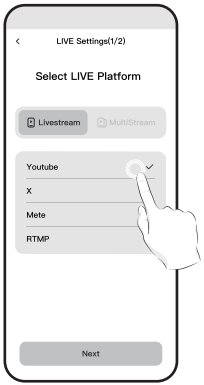
3. 无线直播
Wireless Livestream

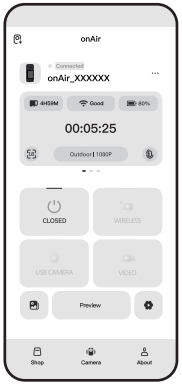
1

2



3

4



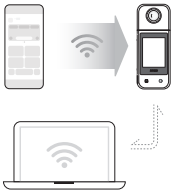
4-1. 无线相机
Wireless Camera

前往官网下载Aicoco Studio Lite电脑端应用

Download Aicoco Studio Lite PC app on the Aicoco official website

Download Windows

1



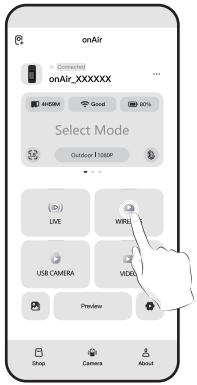
请打开APP为相机设置网络，且与电脑连接到同一网络下

Use APP to set up the camera's WiFi connection. Please make sure that the camera is connecting the same WiFi network as PC

建议使用专属 Wi-Fi 网络，以保证无线直播效果

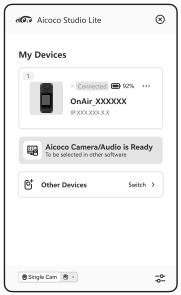
For reliable livestream performance, recommend connecting a dedicated WiFi network

2



4-2. 无线相机设置（电脑端）
Wireless Camera Setup (PC Part)

3



有关"多机模式"设置说明，请参阅官方网站上的用户手册

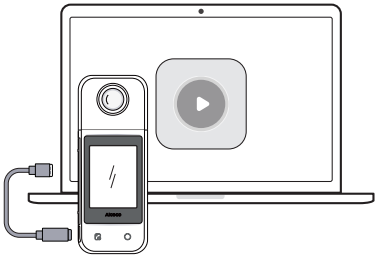
For MultiCam mode setup instructions, please refer to the User Manual on official website

4

在OBS、视频会议软件上选择Aicoco Camera、Aicoco Audio，像设置普通的电脑摄像头一样

Select Aicoco Camera / Aicoco Audio as an usual computer camera, on such as OBS, Zoom, any software where you need the video / audio

5.USB摄像头
USB Camera



6.视频录像
Video Recording

FCC Caution:
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.
If this equipment does cause harmful interference to radio or television reception,
which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.
The device has been evaluated to meet general RF exposure requirement.

Specific Absorption Rate (SAR) information:
This device meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health. FCC RF Exposure Information and Statement the SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types: This device has also been tested against this SAR limit. This device was tested for typical body-worn operations with the back of the This device kept 0mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain an 0mm separation distance between the user's body and the back of This device. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.
