

# 1

A:Host  
B:Lora antenna  
C:BLT  
D:GPS  
E&F:Fixed components

Before assembling, please check whether the packing components are complete if there are any missing, please contact PIECES

# 2

Corresponding to the label assembly accessories:B,C,D

# 3

# 4

Unscrew the black plastic cap

# 5

Install the network cable in the black part

You have completed the installation of P100

Connect to the internet  
start your mining journey

# 6

Connect bluetooth with the [Helium] APP

Choose your Hotspot  
Or you can search for PISCES directly

## P100 GATEWAY

Installation and instructions

- Bluetooth 5.0,BLE, Ethernet Lan, GPS
- Signal range: up to 10 miles
- ECC608 crypto chip
- Arm64 High computing power CPU
- Support OTA, Dashboard
- Ultra-low power consumption: 5W Support POE
- SX1302
- Tens of thousands of LoRaWAN end nodes

PIECES

## HOW TO USE PISCES-P100

- a. Download [Helium] app in APPStore/Google play
- b. Open the [Helium] app, connect to Bluetooth within 5 minutes, or scan the QR code on the machine,
- c. Select Hotspot named PISCES-P100
- d. Confirm that the power supply and Bluetooth connection are successful
- e. [Helium] installation is complete, start scanning hotspot

## FCC Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

## RF Exposure Information

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator and your body.
