
BLUVY
User Manual

Installation

- Surface Preparation Warning: Ensure the Wall Base is installed on a flat, dry, and clean surface. Remove any dust, oil, or moisture. Use the provided alcohol wipe or rag for the best adhesion. Failure to properly prepare the surface may result in the product falling.
- Remove the backing from the Double-sided adhesive and place the Wall Base on the desired location.
  Adhesive Quick Release: The adhesive backing comes with a tab. Pull Overall Station to make it easier to remove the Wall Base if needed. This ensures that you can reposition or remove the product without damage or residue.
- Secure the Wall Base: Press firmly for optimal adhesion and stability. For a more permanent fixture if desired.

Quick Release Removal

To remove BLUVY for charging or cleaning, press and hold the quick-release mechanism's two tabs, then slide BLUVY upwards.

Charging

- Caution: Do not recharge the battery in the shower or near water sources.
- Charging Process: Remove the charging port cap and connect the provided USB-C cable for charging.
- After Charging: Ensure to replace the cap to prevent water or dirt from entering the charging port.

Operation and Controls

Camera Cover: Attach the cover onto the camera using the adhesive backing. Slide to the left or right to cover or uncover the camera.

Warranty:

We offer a comprehensive warranty from the date of purchase, covering free repairs for any defects in materials or workmanship. This warranty does not cover damage caused by improper installation, usage, or external factors. The warranty period varies by region. Customers are responsible for any shipping costs associated with returns or repairs.

Customer Support:

For assistance, contact us at Support@Kiusom.com. Please include your name, product details, and a brief description of the issue.

Warning:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

This transmitter must not be co-located and operated with Minimum Distance 20cm between the radiator & your body.
