

**EmWicon Corporation**

7F-5, No. 258, Liancheng Rd., Zhonghe Dist., New Taipei City, Taiwan 235

Tel: 886-2-82271348; FAX: 886-2-82271347

Date: August 17, 2026

Request for Modular Approval for

FCC ID: **2A3G3-WMU821X**

| Item | Requirements                                                                                                                                                                                                        | Requirement Met | EUT                                                                                                                                                                                |
|------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|-----------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 1.   | The radio elements must have the radio frequency circuitry shielded. Physical components and tuning capacitor(s) may be located external to the shield, but must be on the module assembly                          | Yes             | The module is equipped with its own shielding case.                                                                                                                                |
| 2.   | The module must have buffered modulation/data inputs to ensure that the device will comply with Part 15 requirements with any type of input signal                                                                  | Yes             | The module has buffer modulation / data inputs.                                                                                                                                    |
| 3.   | The module must contain power supply regulation on the module                                                                                                                                                       | Yes             | The module has its own power supply regulation.                                                                                                                                    |
| 4.   | The module must contain a permanently attached antenna, or contain a unique antenna connector, and be marketed and operated only with specific antenna(s), per §§ 15.203, 15.204(b), 15.204(c), 15.212(a), 2.929(b) | Yes             | The module meets the FCC antenna requirements. The requirements of antenna connector and spurious emission have been fulfilled.                                                    |
| 5.   | The module must demonstrate compliance in a stand-alone configuration                                                                                                                                               | Yes             | The module was tested on evaluation board, and it's not inside of another device during testing                                                                                    |
| 6.   | The module must be labeled with its permanently affixed FCC ID label, or use an electronic display                                                                                                                  | Yes             | The module transmitter will be labeled with its own FCC ID, and for OEM integration the integration manual contains labeling instructions for the host device per Part 15.212 (vi) |
| 7.   | The module must comply with all specific rules applicable to the transmitter, including all the                                                                                                                     | Yes             | The module approved transmitter complies with all applicable rules and the integration manual contains any                                                                         |

|    |                                                                    |     |                                                                                                    |
|----|--------------------------------------------------------------------|-----|----------------------------------------------------------------------------------------------------|
|    | conditions provided in the integration instructions by the grantee |     | specific requirements addressed to the integrator and/or to the end-user of the final end-product. |
| 8. | The module must comply with RF exposure requirements               | Yes | The modular transmitter complies with RF exposure requirement.                                     |
