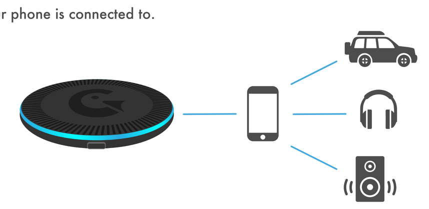
Your smart speaker away from home.

- Truly hands-free - no unlocking, clicking or swiping.
- 2-3 days of battery (depending on usage)
- Water/dust/impact resistant - IP67
- Always evolving to be compatible with other voice assistants.
- Enables your headphones and car speakers to work with your favorite voice assistant. How? TalkSocket hears your commands then your voice assistant answers through the audio device your phone is connected to.



Give it a Go.

IN THE STORE
"Alexa, what's on my shopping list?"

ON THE ROAD
"Alexa, shut my garage door."

ON YOUR WAY
"Alexa, preheat the oven to 425°"

ON A WALK
"Alexa, play my favorite podcast."

FOR THE HOT TUB
"Alexa, turn the hot tub temperature to 104°"

IN THE PARK
"Alexa, order more dog food."

Made for iPhone | iPad | iPod

Compliance Information: Hereby, TalkGo Inc., declares that this device is in compliance with Directive 2014/53/EU and Radio Equipment Regulations 2017. SAR: This device has been tested and meets applicable limits for radio frequency exposure. The product complies with the FCC portable RF exposure limit set forth for an uncontrolled environment and are safe for intended operation as described in this manual. The further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power if such function is available.

Battery Safety: Your device contains rechargeable lithium-ion polymer batteries and should be replaced only by a qualified service provider. Do not disassemble, open, crush, bend, deform, puncture, shred or attempt to access battery.

Operating Information: Frequency: Bluetooth (2402-2480 MHz) Maximum Radio Power < 10 dBm, Wireless Power Consortium (111-205 kHz) Input rating: 5V⎓300mA, Battery Rated: 3.7V⎓129mAh.

iPhone®, iPad®, and iPod Touch® are trademarks of Apple Inc., registered in the U.S. and other countries. Use of the Made for Apple badge means the an accessory has been designed to connect specifically to the Apple product(s) identified in the badge and has been certified by the developer to meet Apple performance standards. Apple is not responsible for the operations of the device or its compliance with safety and regulatory standards. Please note that the use of this accessory with an Apple product may affect wireless performance.

FCC Statement: This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. This equipment has been tested and found to comply with the limits for a class B Digital device, pursuant to part 15 of the FCC rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device complies with ISED's licence-exempt RSSs. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
Le présent appareil est conforme aux CNR d' ISED applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes : (1) le dispositif ne doit pas produire de brouillage préjudiciable, et (2) ce dispositif doit accepter tout brouillage reçu, y compris un brouillage susceptible de provoquer un fonctionnement indésirable.

Radiation Exposure Statement:
The product comply with the Canada portable RF exposure limit set forth for an uncontrolled environment and are safe for intended operation as described in this manual. The further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power if such function is available.

Déclaration d'exposition aux radiations:
Le produit est conforme aux limites d'exposition pour les appareils portables RF pour les Etats-Unis et le Canada établies pour un environnement non contrôlé.
Le produit est sûr pour un fonctionnement tel que décrit dans ce manuel. La réduction aux expositions RF peut être augmentée si l'appareil peut être conservé aussi loin que possible du corps de l'utilisateur ou que le dispositif est réglé sur la puissance de sortie la plus faible si une telle fonction est disponible.

FCC ID: 2A3GF-BLK-01 IC: 28304-BLK01

Congrats.

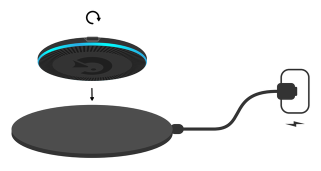
The future knocked and you answered.

Welcome to TalkGo, not to be confused with Taco, but we loves those too.
You are one of the first lucky owners of a TalkGo product and we couldn't be more excited.
Say hello to using your favorite voice assistant, hands-free everywhere you go! You can think of it as your smart home, away from home. *The Jetsons* would be proud.

\- TalkGo Team

Step 1

Start charging. Place the device face down on the charger. The device will flash yellow to acknowledge it's charging. Once it's fully charged, the light will show green.

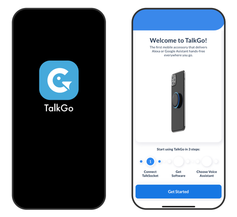


Charger + Cord

Step 2

While the device is charging, download the TalkGo app on the App Store or Google Play. Once the device is fully charged, open the TalkGo app and begin the onboarding process.

GET IT ON Google Play
Download on the App Store

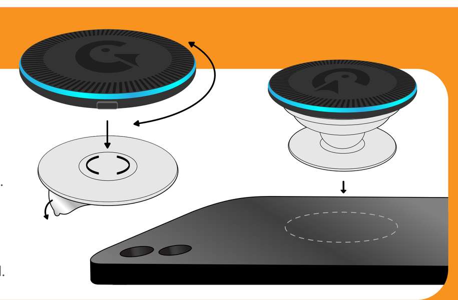


TalkSocket
TSO-BLK-01

With integrated PopSockets PopGrip

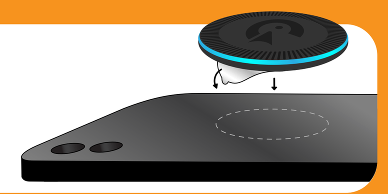
Peel clear film off the bottom of the product and stick it to the back of your phone or case. Push down and turn the TalkSocket 90° to remove the device from the PopGrip base.

To apply the TalkSocket to the PopGrip base, align the two pieces and turn 90° until you hear a click to ensure it is properly connected.

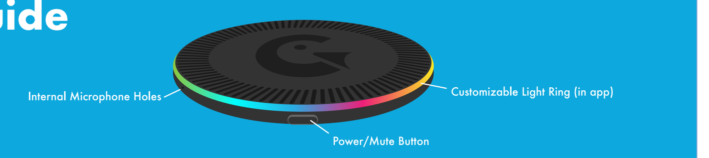


Talket
TET-BLK-01

Peel clear film off the bottom of the product and adhere to the back of your phone, case or MagSafe accessory products.



Guide



SET UP
Once your device is fully charged, return to the TalkGo app for easy set up. During this process, the app will walk you through a series of easy steps. During the setup process you will be asked to click the side button once, then the device will begin to rapidly flash blue until it has been properly paired. You will select the name that appears in the app: TalkSocket or Talket. Once it has paired successfully, the LEDs will flash green. If the pairing set up is not successful, it will flash red after 2 minutes letting you know it didn't pair and to try again. When the device has been properly paired, you will be directed to the Alexa app to finish the last step in connecting your device. Now it's time to start talking!

MUTE
To mute the product, click the side button once and a light will turn red indicating you are now on mute. To turn it off mute, click the side button once again and the red light will turn off. You can start talking to your device again.

POWER ON/OFF
To turn **ON** the device, click the side button once. The device will blink blue until it blinks green two times signaling that it's now connected to the phone. If the device can not connect to the phone it will flash red letting you know it could not pair properly.

To turn **OFF** the device, press and hold the side button for 3 seconds. You'll see the device flash white twice indicating that you disconnected from Bluetooth and powered off.
