NOTE: The equipment has been tested and found to comply with the limits for a Class B digital device pursuant to part 15 of the FCC rules. This device is designed to provide maximum protection against harmful interference in a residential environment. The equipment generates, uses, and can radiate radio frequency energy and, if it is not used or installed in accordance with the instructions, may cause harmful interference to a licensed radio communication system. However, there is no guarantee that interference will not occur in a particular installation. If the equipment does cause interference to another electronic device which you are using, you may attempt to eliminate the interference by the following measures: Reorient or relocate the receiving antenna; Increase the separation between the equipment and receiver; Connect the equipment to an outlet on a circuit different from that to which the receiver is connected; Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
1) This device may not cause harmful interference, and
2) This device must accept any interference received, including interference that may cause undesired operation.

FCC ID: JAGH-F760
