Getting to Know Your Device

1.Wring in Wet Conditions
Your device is water-resistant, which means it is rain-proof and splash-proof and can be used in some low-pressure environments.
NOTE: Do not swim with your Smart watch. We also don't recommend using your watch in the shower. If you have worn it but the device, wearing it 24/7 does not give your skin a chance to breathe. Whenever you get your watch wet, dry it thoroughly before putting it back on.

2.Using Quick View
Quick View lets you can check the time or the message form your phone on your Smart watch without tapping. Just turn your wrist and glance at the time screen will appear for a few seconds.

3.Using Customer service on Da Fit App
If you have operation issue, you may go to my device on App to contact customer service.

4.Wireless transmission distance:10 meters (33 feet).

FCC Compliance Statements

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.

Caution: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Guarantee

Thank you for shopping with us! This product comes with a warranty against defects in materials and workmanship, as outlined due to any of the following:

(1)Damage by improper operation, such as improper installation;
(2)Negligence and damage because of transportation or other accidents;
(3)Maintenance and modification without approval;
(4)Other damage caused by force majeure, such as natural disaster, earthquake, etc.
(5)Other damage caused by general use outside home (e.g. industrial use, commercial use);
(6)Aging, wearing and tearing caused by normal operation of the product without affecting the normal operation of the product.
