| <div>Solder<br/>Board-Component<br/>View 2</div> |  <p>A photograph of a green printed circuit board (PCB) component, likely a Bluetooth module, placed on a blue textured surface. The component is rectangular with rounded corners and features various electronic components, including a large black integrated circuit (IC) in the center, several smaller surface-mount components, and a circular component on the right side. A black ruler is positioned vertically to the left of the component, showing measurements in millimeters (0 to 100 mm) and centimeters (0 to 10 cm). The component is oriented horizontally, and the ruler is used for scale.</p> |
| <div>Antenna View</div>                          | <div>BT Antenna</div>  <p>A photograph of the same green PCB component, oriented vertically, showing the antenna side. The component is placed on a blue textured surface. A red rectangular box highlights a small, white, rectangular component on the top edge of the PCB, which is the Bluetooth antenna. A red line points from the text "BT Antenna" to this component. The component also features a large black IC and other electronic components.</p>                                                                                                                                                      |
