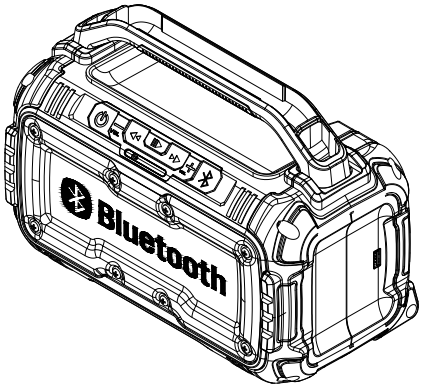
Battery Powered Bluetooth Speaker



Instruction Manual

Summarize

Thank you for choosing our company's Bluetooth digital speaker. This series of Bluetooth digital speakers features a fashionable design, rich functionality, and excellent compatibility, allowing you to truly experience the joy of wireless connectivity and high-fidelity music playback.
It is your best choice for office work, outdoor activities, driving, and traveling.
Before using the product, please read this manual to ensure the correct use of the product, making your operation and usage more convenient and efficient.

Product features

• Supports Bluetooth wireless connectivity.
• Supports USB flash drive music playback.
• Stunning sound quality and domineering appearance.

Low-voltage protection

Low-voltage protection is our first concern to protect your valued battery.
The speaker will automatically shut down if the battery voltage is below 15V to prevent any damage.

Warning

1. Do not use abrasive cleaning agents to clean this product.
2. Do not allow the product to be heated or near a source of ignition, such as a cooking stove.
3. Do not expose the product to direct sunlight for a long period of time.
4. Do not dispose of the product in a fire to avoid explosion.
5. Do not attempt to disassemble the product to make any modifications.
6. Do not use the product in the rain.
7. If you do not intend to use the product for a long period of time, please store it in a dry environment and disconnect the battery.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
-- Reorient or relocate the receiving antenna.
-- Increase the separation between the equipment and receiver.
-- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
-- Consult the dealer or an experienced radio/TV technician for help.
Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with the FCC RF radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator and any part of your body.
