3.5 If the Smart Tag fails to connect to the Find My app, follow the instructions in section 3.3 to perform a factory reset, and then restart the pairing process.

Important matters

The Smart Tag contains delicate electronic parts, including a battery. To avoid damage, loss of function, or potential harm, please refrain from dropping, hitting, puncturing, crushing, disassembling, exposing it to extreme heat or liquids, or placing it in areas with a high concentration of industrial chemicals.

WARNING: Do not swallow the battery; here is a chemical bum hazard

Choking Hazard Warning

The Smart Tag, its battery compartment door, the battery itself, and the case may pose a choking hazard or cause injury to small children. Please keep these items out of reach of young children

Medical Device Interference

The Smart Tag contains components and radios that emit electromagnetic fields, as well as magnets. These elements may potentially interfere with pacemakers, defibrillators, or other medical devices. To ensure safety, maintain a safe distance between your medical device and the Smart Tag. We strongly advise consulting your physician and the manufacturer of your medical
device for information that is specific to your situation. If you suspect that the Smart Tag is interfering with your pacemaker, defibrillator, or any other medical device, discontinue its use immediately.

Important Handling Guidelines

It's normal for the Smart Tag to show discoloration with regular use. To clean it, use a soft, dry, lint-free cloth. Avoid applying pressure with sharp objects on the rubber seal or the battery terminal contacts inside the device.

Do not allow moisture to enter any openings or use aerosol sprays, solvents, or abrasive materials to clean the device.
