Solder Board-Component View 6	 A photograph of a small, white, rectangular electronic component with several gold-colored solder points. The component is placed on a blue textured surface next to a black L-shaped ruler. The ruler has white markings in millimeters, with the horizontal scale ranging from 0 to 100 mm and the vertical scale ranging from 0 to 70 mm.
Solder Board-Component View 7	 A photograph of the same electronic component from a different angle, showing its top surface. It is placed on the same blue textured surface next to the same black L-shaped ruler, which shows the horizontal scale from 0 to 100 mm and the vertical scale from 0 to 60 mm.

Solder Board-Component View 8	 A photograph of a small electronic component, likely a solder bridge or a small PCB, placed on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler has two scales: a vertical scale on the left and a horizontal scale on the bottom. The vertical scale ranges from 0 to 100 mm, and the horizontal scale ranges from 0 to 100 mm. The component is located at approximately 10 mm on the vertical scale and 10 mm on the horizontal scale.
Solder Board-Component View 9	 A photograph of the same electronic component as in View 8, placed on a blue textured surface. The component is positioned next to a black ruler with white markings. The ruler has two scales: a vertical scale on the left and a horizontal scale on the bottom. The vertical scale ranges from 0 to 100 mm, and the horizontal scale ranges from 0 to 100 mm. The component is located at approximately 10 mm on the vertical scale and 10 mm on the horizontal scale.
