Subject: Re: RE: 3rd Follow-Up Questions Regarding FCC ID: A3LSMG318ML_5-16-15
Date: Monday, May 18, 2015 4:22:20 AM

Dear PCTEST TCB,

Please find below responses for the questions.

We will send the revised documents and reports by CPCex.

Thank you

1	Thank you for providing the revised MPR Attestation letter, but it is still missing Subtests for HSDPA, since they also do not show expected MPR. >> Revised
2	Thank you for the revised SAR report. The maximum output power of Bluetooth in the SAR report does not match the latest Bluetooth/WIFI Tune-up document submitted on 5/14. Please clarify. If the targets in the SAR report are the correct targets, please revise the Bluetooth test report to include average power measurements to justify the target power level as the peak powers are above the tune-up range listed in the SAR report. **→ HCT test lab will ask to TCB for this question.**
3	(Re-send) The simultaneous Transmission table submitted in response to the original RT does not align with Section 15 of the revised SAR report or the bands described in the operational description. Please clarify the supported simultaneous transmission capabilities of the device. A revised simultaneous Tx table for the operational description was not received. **→ Sec. 15 was revised. (Add the operational description for simultaneous transmission capabilities for this device.)**
4	The interpolated dielectric properties in plot 5 for the new SAR test data still does not appear to match with the measured parameters in section 10.1. Please clarify **→ Add the dielectric properties of plot 5.** **frequency e' e''** **2400000000.0000 39.9681 13.1209** **2405000000.0000 39.9327 13.1097** **2410000000.0000 39.9268 13.1128** **2415000000.0000 39.8974 13.1080** **2420000000.0000 39.8846 13.1059** **2425000000.0000 39.8519 13.1099** **2430000000.0000 39.8373 13.1152** **2435000000.0000 39.8076 13.1449** **2440000000.0000 39.7957 13.1818** **2445000000.0000 39.7972 13.2015** **2450000000.0000 39.7775 13.2256** **2455000000.0000 39.7660 13.2651** **2460000000.0000 39.7614 13.2929**

	2465000000.0000	39.7475	13.3291
	2470000000.0000	39.7433	13.3566
	2475000000.0000	39.7376	13.3630
	2480000000.0000	39.7317	13.3753
	2485000000.0000	39.7168	13.3899
	2490000000.0000	39.7000	13.3893
	2495000000.0000	39.6924	13.3862
	2500000000.0000	39.6741	13.3646

Best Regards

Kijoong Kwon
