Board-Component
View 1**

Solder Board-Component View 2	 A photograph of a small, rectangular black PCB component with ten yellow LEDs mounted on its surface. The component is placed on a blue textured background next to a black ruler with white markings. The ruler shows dimensions in millimeters, with the component spanning approximately 40mm in width and 20mm in height. A thin black wire is connected to one of the LEDs.
Solder Board-Component View 3	 A photograph of the same black PCB component from a different angle, showing the underside. The component is placed on a blue textured background next to a black ruler with white markings. The ruler shows dimensions in millimeters, with the component spanning approximately 40mm in width and 20mm in height. A thin black wire is connected to one of the LEDs.

Solder Board-Component View 4	 A photograph showing a small, rectangular, gold-colored component (likely a battery or antenna) soldered onto a black printed circuit board (PCB). The component is positioned next to a white ruler with black markings, indicating its size. The ruler shows measurements in millimeters (mm) and centimeters (cm). The component is labeled with '900MHz' and 'Antenna'. The PCB has some text, including 'PitchRemote E2 • 2111'.
Antenna View	 A photograph showing a black, rectangular component (likely a battery or antenna) with a red line pointing to it from a label '900MHz Antenna'. The component is placed on a blue textured surface. The component has several circular indentations on its top surface.
