

User manual

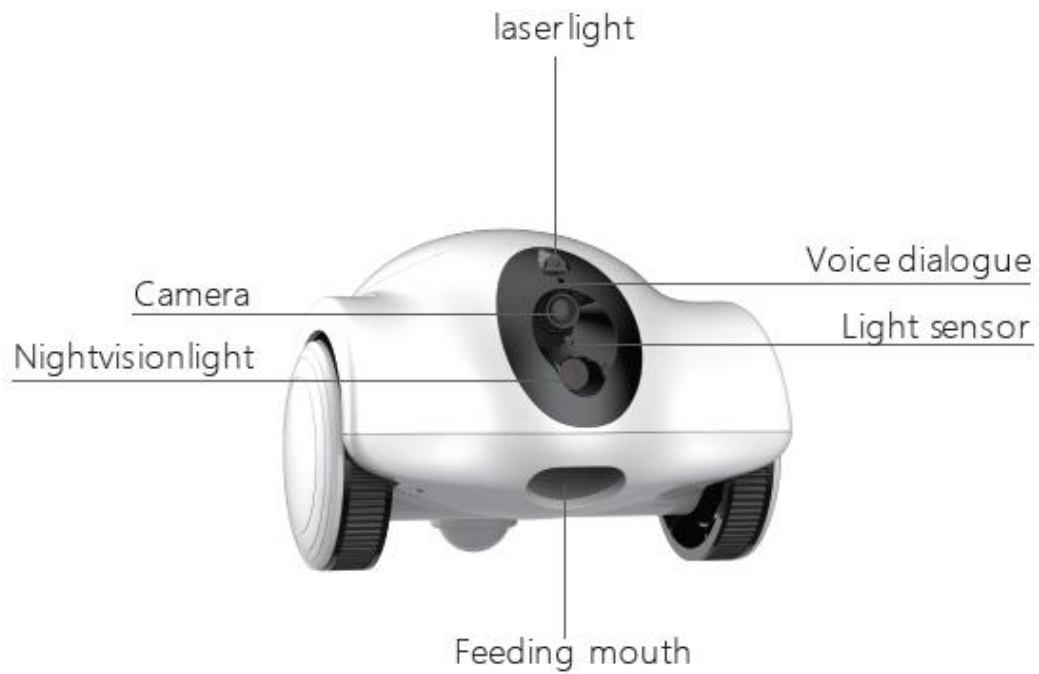

Intelligent pet companion robot

Model: XPD-2

Preface

This product is a pet loving robot specially developed for pet raising families or individuals. Completely solve the problem that even if no one is at home, you can interact with your pet at any time, so that love can always accompany you and no longer be lonely. Based on the linkage between APP and equipment, the product can realize the interesting functions of online cat handling, remote feeding, real-time interaction, laser cat teasing and so on. In addition, in order to meet the needs of users for "online group mealtime", the APP supports multiple accounts sharing at the same time and synchronizes "cloud mealtime", which makes the fun double mellow through sharing.

Installation guide

Start operation

Function button

common problem

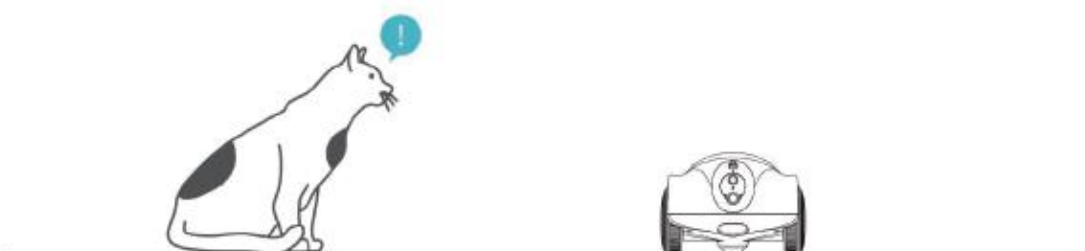

Q: What should I do if my pet is not interested in robots?

A: This is a new friend for pets. When you are not at home, you can control the robot to play with pets or feed snacks to build up the familiarity between them as much as possible.

Q: A new friend

A: If your pet starts to play with the robot autonomously, then a new friend will be made like this.

Q: A new friend

A: If your pet starts to play with the robot autonomously, then a new friend will be made like this.

Q: How to use snack feeding device?

A: You can open the snack box through the recessed position on the back of the robot, put your pet's favorite food into the snack box, and then close it to lock the snack box.

User prompt

- 1: Do not use the robot while charging;
- 2: Before opening the mobile app, make sure that both Bluetooth and WiFi are turned on;
- 3: When the robot judges that the brightness of the environment is dark, the night vision mode will automatically turn on and the video will also enter the night mode.

FCC Statement

This device complies with Part 15 of the FCC rules. Operation is subject to the following two conditions: 1) this device may not cause harmful interference, and 2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

FCC RF Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.
