- Open "smart life" APP click "Me-MoreServices-Google Assistant" follow the instructions to complete the setup.

- The following voice commands are supported.  
1: Ok Google, turn on (Device name).  
Ok Google, turn off (Device name).

Now you can control your smart devices through Google Home

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with a minimum distance of 20cm between the radiator & your body. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.

NOTE:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules.

These limits are designed to provide reasonable protection against harmful interference in a residential installation.

This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications.

However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Warranty card

Dear user

Thank you for your purchase of the company's products, all of the company's products are enjoying a 30-day replacement 1 year warranty service policy. In order to ensure that the legitimate interests, read the warranty card and safekeeping.

- This warranty card as the only evidence of the Company's product warranty.
- Product since the date of sale within 24 months, such as performance failure occurs.The product itself and the packing is complete No scratch, you can replace the same type of products (Other than human factors).
- Product since the date of sale within one year form the event of the failure of performance, warranty service (Other than human factors).
- Out of warranty in the warranty.
- Within non-staff teardown to the not covered under warranty.

★ Specification

|                   |                                          |
|-------------------|------------------------------------------|
| Receptacle Rating | 15Amp, 125V AC                           |
| USB Rating        | Three USB ports with total 4.8Amp, 5V DC |
| Wireless          | Wi-Fi (2.4GHz)+BLE                       |
| FCC ID            | 2A3RZ-BAABSC                             |

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) this device may not cause harmful interference,  
(2) this device must accept any interference received, including interference that may cause undesired operation.

★ Product introduction

- This innovative product makes it easy to add smart features to your home. Installation is easy using the dedicated Smart life App, and you can control the product using Amazon
- This product combines smart outlets, USB ports, to transform a simple power socket into an intelligent power management system that uses your home's own Wi-Fi (2.4GHz) or bluetooth.

★ Function indicator diagram

- Power on the device and confirm that indicator light rapidly blinks (2 times/second)
- If the indicator light not blink (2 times/Second): Please hold button for 5 Seconds

★ How to Use This Outlet

1. Basic Installation

- Open the app. You should see the outlet in the device list. Tap to configure the outlet.

2. Wi-Fi Connection

- Your phone must be connected to your home Wi-Fi network to configure the outlet.
- Press the power button on the outlet itself. The light should flash quickly. If it doesn't, press and hold the power button for 5 seconds.
- On the app, press the "ADD DEVICES" button or "+" on the top and choose the Power strip.
- Tap the button "Confirm indicator rapidly blink". Then, enter your Wi-Fi password.
- It will take a minute for the configuration to complete.
- Enter a name for the outlet (like "Living Room") to finish the installation.

3: Using the APP to control devices

- Tap the name of the outlet (like "Living Room") in the device list to control it.
- Tap "Schedule" to set a schedule for this outlet.

★ How to Use This Outlet

1. Log in to APP and set up the connection.

- Bluetooth is recommended
- Turn on Bluetooth of mobile phone

- You can also use Wi-Fi connections

( B )

★ Add an Alexa Skill

Download the Alexa app then sign in your account.

- On the APP, select the "More", click "Skills & Games", then search "Smart Life".
- Click "ENABLE TO USE" to enable the skill.
- Enter your account number and password of your Smart Life APP. Do not forget your country code.

- Click the "Authorize" to link Alexa. while it appears "successfully linked", click "close".

- Open "Smart Life" APP click "Me-MoreServices-Alexa" follow the instructions to complete the setup.
- The following voice commands are supported.  
1: Alexa, turn on the (device name).  
Alexa, turn off the (device name).

Once the Smart life App has been linked to Alexa, you can control any function of your outlet. **Note: If you have renamed the outlet in the Smart life app, it may not appear in the Alexa app unless the Alexa app can recognize the name.**

★ Google home

- Tap "+" on the Google Home app's home page, select "set up device", then "Have something already set up."

- Find "Smart Life" and open it. In the new page, choose your country code, enter your account number and password of your Smart Life APP, click "Link Now" to complete account binding.

Now you can control your smart devices through Google Home

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
