Inquiry:

Dear Sir,

Good day. Our new True Wireless earphone, Model No.: AOWS1, consists of two earbuds with small size (17.51 x 15.1 x 12.81mm for ball part & 21.01 x 17.16 x 11.53 mm for bean part, not including bridge) and irregular shape, curved design and smooth surface to fit to the ear or touch control. The size and design of the earbuds do not allow for legible FCC ID marking requirements to be marked on the product level.

Hence, we would like to apply for exemption to show the FCC ID on product level. We will place the FCC ID on user manual (user compliance information sheet) & package.

Please kindly review and approve, many thanks.

Best Regards,

Li Shuchen

FCC response on 12/29/2025

Please attach an image/diagram of your device.

---Reply from Customer on 12/29/2025---

Dear Sir,
Please kindly find attached diagram.
Happy new year.

Best Regards
Li Shuchen

FCC response on 12/30/2025

Yes, if the device is too small or intended for a use where labeling with a font size of four points or larger is not feasible (and the device does not use electronic labeling), the FCC ID must be included in the user manual. Additionally, the FCC ID should be placed on the device packaging or on a removable label affixed to the device. For further details, refer to KDB 784748.
