

Print specs:

Paper grammage: 70 gsm

Guide delivery: Folded

Print colours: 1 C (Black)

Paper quality: woodfree

Open size: 116 x 252 mm

Close size: 116 x 84 mm

Release date: Sept. 2025 (A01, PP2)

Compliance Information Model: M5AEBT

Frequency band: 2400 – 2483.5 MHz

Transmit power: 10 mW (max)

The compliance marks are shown on the baffle which is easily accessible by the user, under the ear pads. To remove or replace the ear pads, please refer to the instruction manual.

Statements regarding FCC and ISED

FCC Supplier's Declaration of Conformity (SDoC)

SENNHEISER

Model No: M5AEBT

We, Sonova Consumer Hearing USA LLC

declare the above device comply with the requirements of Federal Communications Commission.

This device complies with Part 15 of the FCC rules. Operation is subjected to the following two conditions:

1) This device may not cause harmful interference, and

2) This device must accept any interference received, including interference that may cause undesired operation.

For SDoC information, refer to www.sennheiser-hearing.com/download

This device complies with Part 15 of the FCC rules, RSS-247 of Innovation, Science and Economic Development Canada (ISED). Operation is subject to the following two conditions: 1) This device may not cause harmful interference, and 2) This device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Changes or modifications made to this equipment not expressly approved by the manufacturer may void FCC authorization to operate this equipment.

Déclaration requise par la FCC et ISDE

Cet appareil est conforme à la Partie 15 des réglementations de la FCC et aux normes CNR-247 d'Innovation, Sciences et Développement économique Canada (ISED). L'utilisation de l'appareil doit respecter les deux conditions suivantes : (1) L'appareil ne doit pas produire d'interférences nuisibles, et, (2) il doit accepter toutes interférences reçues, y compris celles qui pourraient avoir des effets non désirés sur son fonctionnement.

CAN ICES3(B)/NMB3(B)

RF Radiation Exposure Information

The product complies with the rules of FCC and ISDE (RSS-102) for the portable RF exposure limit set forth for an uncontrolled environment and is safe for intended operation as described in this manual. This product is not subjected to FCC routine RF exposure evaluation per Section 2.1093 and RSS-102 of ISDE. Further RF exposure reduction can be achieved if the product can be kept as far as possible from the user body or set the device to lower output power if such function is available.

This transmitter must not be co-located or operated in conjunction with any other antenna or transmitter. Use of other accessories not verified by the manufacturer may not ensure the compliance.

Informations sur l'exposition aux radiations RF

Le produit est conforme aux règles de la FCC et d'ISDE (CNR-102) en ce qui concerne la limite d'exposition portable RF définie pour un environnement non contrôlé et est sans danger pour le fonctionnement prévu, tel que décrit dans ce manuel. Ce produit n'est pas soumis à l'évaluation de routine de l'exposition aux RF par la FCC conformément à la section 2.1093 et à la norme CNR-102 d'ISDE. Une réduction supplémentaire de l'exposition aux RF peut être obtenue si le produit peut être maintenu aussi loin que possible du corps de l'utilisateur ou si l'appareil est réglé sur une puissance de sortie inférieure, si cette fonction est disponible.

Cet émetteur ne doit pas être installé ou utilisé en conjonction avec une autre antenne ou un autre émetteur. L'utilisation d'autres accessoires non vérifiés par le fabricant ne peut pas garantir la conformité.
