

Tire Pressure Sensor Antenna Gain Report V0.0

一、 Antenna technical specification

Antenna type: shrapnel antenna (White brass)

Operating frequency band: 315MHz~434MHz

Impedance: 50 Ω

Attended mode: Welding on the PCB

Radiation pattern

Manufacturer: Guangzhou Xiangxing Electronic Technology Co., Ltd.

Address: 10F, Building 2, Vigao Science and Technology Innovation Center,
No.10Chuangyun Road, Shiji Town, Panyu District, Guangzhou, China

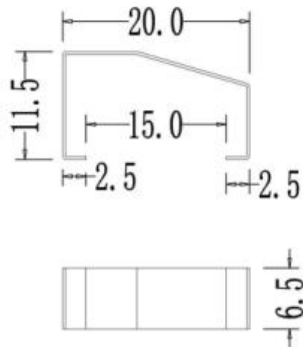

We statement that All measurements were performed radiated and therefore additional antenna gain documentation is not required
