

Start Your New Sleep

Step 1: Download and Register the APP

Download the holmoon app from the Apple App Store or Google Play, then create or log in to your account.

- NOTE:
- For Android versions below 12, geographic location permission is required to connect successfully. This will not be used to record personal data.
 - The holmoon app is regularly updated, follow in-app instructions for any changes.

Step 2: Plug it in

Connect the device to a power adapter with an output voltage of 5V/1A using the USB-C cable.

Step 3: Connect Your Coozon Pro 2

Tap the device's power button to turn it on. Open the holmoon APP and follow the in-app steps to connect your Coozon Pro 2.

- NOTE:
- Enable the Bluetooth on your phone.

Things to Try

1. Customize 3 Sound Buttons

Tap 'Start' on the 'My Sounds' page, select a sound to replace, choose your preferred sound from the Library to add, and done—you device will sync automatically.

2. Customize a Routine

Create your routine by modifying defaults or customizing with library sounds. Once set up, tap routine button to start your holmoon's sleep routine.

3. Adjust Clock Brightness

Tap the settings icon in the upper right corner of the 'My Plan' page to adjust.

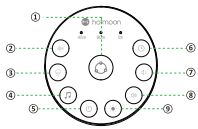

4. Bluetooth Speaker Mode

Press the single button on the device. After 'Bluetooth speaker mode' plays, connect to 'Coozon Pro 2' in Bluetooth settings.

5. Adjust the Voice Prompt Volume

After pairing, tap the settings icon in the 'My Plan' page → 'Prompt Tone Volume' and adjust the dBs.

Buttons

1. Routine

- Tap when you're ready to rest. It will seamlessly transition through each step of your Routine as programmed in the app.
- Once your Routine is playing, tap this button to skip to the next step.

2. Noise Sounds

Tap to switch between up to 9 sounds customized in the app.

3. Nature Sounds

Tap to switch between up to 9 sounds customized in the app.

4. Music

Tap to switch between up to 9 sounds customized in the app.

5. Power

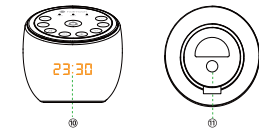

Tap to turn on or switch to standby mode if already active.

6. Timer

Tap: Volume down, tap over 2s: Volume down continuously.

8. Volume +

Tap: Volume up, tap over 2s: Volume up continuously.

9. Light

Tap: Cycle through 7 colors and off, hold 2s: Turn off the light.

10. Clock

After pairing it with your phone, the clock will automatically set its time. You can adjust the brightness and clock display period in the app.

11. Mode Switch

Press to switch between the Sound Machine, Noise and Bluetooth Speaker Modes. The default is Sound Machine Mode, long press to toggle the pairing status.

NOTE:

- Sound Machine Mode:** The device defaults to this mode. You can customize the Routine and three sound buttons in the app. Additionally, the device can be controlled through the app.
- Bluetooth Speaker Mode:** The device can also function as a Bluetooth speaker. In this mode, you can play all audio from the 'Coozon' column through the device.

Safety Warning

- Please always keep the device at least one meter away from children as the cord can pose a strangulation hazard.
- This product is not waterproof. Do not use it near or place in water.
- Do not place this device on a table. When placing it on the table, please avoid the edges to prevent it from falling down, which might damage the device and also get children hurt.

FCC Warning:

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) This device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.
