Harmonic

6-in-1 Portable Stereo Speaker
with Wireless Charging & Ambient Light

Features

- 15W wireless charger
- Bluetooth speaker
- Digital alarm clock
- Carrying handle
- Adjustable ambient light
- Vertical and horizontal phone stand

Characteristics

- ① Aluminium handle
- ② Lampshade
- ③ Wireless charging area
- ④ Silicone control buttons
- ⑤ Clock display area
- ⑥ Speaker cavity
- ⑦ Mobile phone stand
- ⑧ Silicone anti-slip mat
- ⑨ Type-C input port
- ⑩ Cooling vents

Charging

** The battery of your speaker may be exhausted during transportation, please charge it for at least 15 minutes before operating.

1. After connecting data cable and adapter to the power supply, the speaker's built-in battery will be charged. The DC symbol on the screen will keep flashing, indicating that charging is in progress.
2. You can wirelessly charge your phone when the speaker is plugged in. Be sure to position your phone centered on the charging area, or it might not charge. The lightning bolt symbol ⚡ on the screen lights up while charging.

Harmonic supports 5W/7.5W/10W/15W wireless charging conforms to the general wireless charging standard, and realizes short-distance radio energy transmission through magnetic induction. The device supports all common wireless charging devices.

Compatibility includes, but not limited to:

Samsung Note20 5G, Note20 Ultra 5G, Note10+, Note10, Note9, Note8 and Note 5, S24, S23, S22, S21, S20, S10, S9, S8, S7, and S6 series. Galaxy Z Fold, Z Fold2, Z Fold3, Z Fold4, Z Fold5, Z Flip, Z Flip 5G, Z Flip3, Z Flip4, and Z Flip5. Galaxy Buds Pro, Pro 2, Buds Live, Buds+, Buds2, and Galaxy Buds. Watch 5 Pro, Watch5, Watch4, Watch4 Classic, Watch3, Watch Active, and Galaxy Watch Active2. Galaxy S7/S7 Edge, S8/S8+, and Galaxy S9/S9+

Apple iPhone 15/14/13/12/11/X/8 series.

Wireless charging supports a 5W load when using a 5V output adapter. Wireless charging supports 10W load when using adapters that meet QC2.0 or above standards, and 15W load when using QC3.0 output adapter.

FCC Disclaimer:

This device Complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

- 1- This device may not cause harmful interference.
- 2- This device must accept any interference received, including Interference that may cause undesired operation. The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or on experienced radio/TV technician for help or assistance.

- 10 -

FCC RF exposure statement(BT):
The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

FCC RF exposure statement(WPT):
The equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance between 20cm the radiator your body.

This device complies with Part 15 of the FCC Rules and Industry Canada license-exempt RS5 standard(s). Operation is subject to the following two conditions;

- 1- This device may not cause harmful interference.
- 2- This device must accept any interference received, including interference that may cause undesired operation. The manufacturer is not responsible for any radio or TV interference caused by unauthorized modifications to this equipment. Such modifications could void the user's authority to operate the equipment. Under Industry Canada regulations, this radio transmitter may only operate using an antenna of a type and maximum (or lesser) gain approved for the transmitter by Industry Canada. To reduce potential radio interference to other users, the antenna type and its gain should be so chosen that the equivalent isotropically radiated power (e.i.r.p.) is not more than that necessary for successful communication.

Electronic and electrical devices disposal

This symbol indicates that electrical and electronic device is to be collected separately.

- This product is designated for separate collection at an appropriate collection point. Do not dispose of as household waste.
- If the device use batteries, they must be removed from the device and disposed in a appropriate collection center.
- If the batteries cannot be removed, do not attempt to do it yourself since it must be done by a qualified professional.
- Separate collection and recycling helps conserve natural resources and prevent negative consequence for human health and the environment that might result from incorrect disposal.
- For more information, contact the retailer or the local authorities in charge of waste management.
