PAIRING SPEAKER

1. Press and hold the power button (1) for 2-3 seconds to turn on the speaker.
2. The LED indicator will flash blue.
3. Turn on Bluetooth on your device (smartphone or tablet).
4. Select "HUMVEE PORTABLE SPEAKER" from the available device (smartphone or tablet).

CHARGING SPEAKER

5. Turn off the speaker before charging.
6. Plug the USB-C cable into the speaker's charging port.
7. Plug the charging cable into a computer or connect the power adapter to a power outlet.
8. When charging, the LED indicator will glow solid red and will turn off automatically when fully charged.

NOTE:

Charge the speaker battery **fully** before its first use.

TWS CONNECTION: Two Methods for Pairing Speakers

Method 1

- Turn on both speakers. Press the power button (1) of either speaker to activate the TWS connection (within 5 seconds). The LED light on the main speaker will flash blue, while the LED light on the second speaker will be off. The LED light will turn solid blue once the speaker is connected to the device.

Method 2

- Turn on one speaker and connect it to the device. Then, turn on the second speaker and double-press the power button (1) of either speaker to activate the TWS connection (within 5 seconds). The LED light on the first speaker will be solid blue, while the LED light on the second speaker will be off.

WARNING

Read this warning thoroughly before using your headset. Store this manual with the product packaging. The safety precautions manual helps reduce the risk of fire or injury when followed correctly.

- Keep the product dry; do not place it in damp areas.
- Keep out of direct sunlight and high temperatures, as high temperatures may cause damage.
- Avoid exposing the product to cold temperatures to prevent internal damage.
- Do not disassemble the product.
- Avoid dropping the product.
- Do not charge the speaker for **more than 10 hours**.
- When charging, use the USB Type-C charging cable supplied with the speaker.

FCC STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) This device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

RF warning statement:

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

FCC ID: 2A3ZO-240053A
