

EXHIBIT 3 - EUT INTERNAL PHOTOGRAPHS

**EUT Housing and Board
View 1****EUT Housing and Board
View 2**

Solder Board-Component View 1	 A photograph of a green printed circuit board (PCB) populated with various electronic components, including resistors, capacitors, and integrated circuits. The board is placed on a blue textured surface next to a black ruler with white markings. The ruler shows dimensions in millimeters. Text on the board includes "LT-01a<2021-4-23>2" and "压大管条100x18.6mm".
Solder Board-Component View 2	 A photograph of the reverse side of the green PCB, showing the solder pads and traces. The board is placed on the same blue textured surface next to the same black ruler. The ruler markings are visible, showing dimensions in millimeters.

Solder Board-Component View 3	 A photograph of a green printed circuit board (PCB) populated with various electronic components, including a large black circular component, capacitors, and integrated circuits. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler is oriented vertically on the left side of the board.
Solder Board-Component View 4	 A photograph of the same green PCB from a different angle, showing the underside or a different side. It displays the intricate silver-colored solder mask and numerous solder joints connecting components. The board is again placed on a blue textured surface next to a black ruler with white markings in millimeters, oriented vertically on the left.

Solder Board-Component View 5	 A photograph of a yellow printed circuit board (PCB) populated with various electronic components, including integrated circuits, resistors, and capacitors. The board is placed on a blue textured surface next to a black ruler with white markings in millimeters. The ruler shows dimensions from 0 to 200 mm. The PCB has a central rectangular cutout and several circular mounting holes.
Solder Board-Component View 6	 A photograph of the same yellow PCB as in View 5, but from a different angle or after a different processing step. It shows the solder joints and components from a different perspective. The board is again placed on a blue textured surface next to a black ruler with white markings in millimeters, showing dimensions from 0 to 200 mm.
