FCC Statement:
This device complies with part 15 of the FCC Rules.
Operation is subject to the following two conditions:
(1) This device may not cause harmful interference, and
(2) this device must accept any interference received,
including interference that may cause undesired operation.
This equipment has been tested and found to comply with the limits for a Class B digital device,
pursuant to part 15 of the FCC Rules.
These limits are designed to provide reasonable protection against harmful interference in a residential
installation.
This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in
accordance with the instructions,
may cause harmful interference to radio communications.
However, there is no guarantee that interference will not occur in a particular installation.
If this equipment does cause harmful interference to radio or television reception,
which can be determined by turning the equipment off and on,
the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help. Caution: Any changes or modifications
not expressly approved by the party

Specifications

Controller Parameter	
Item	Parameters
Input Voltage	24V/50-60Hz
Input Power	<192W
Power factor	>90%
Control Mode	Infrared remote + Bt APP + Voice control
Lighting control	Bt PWM modulation
Operating temperature	-20°C-60°C
Storage temperature	-40°C-70°C
LED Parameter	
LED Power	0.2W (3V60mA) /0.5W (3V150mA)
Operating Voltage	DC 24V
Service life	30000H
Luminous wavelength	Red: 620-625nm; Green: 518-521nm; Blue: 465-468nm
Operating temperature	-40°C-50°C
Storage temperature	-50°C-60°C
Bt Parameter	
Bt version	Bt 4.0+
Response Frequency	40Hz-18KHz, Nonuniformity: ±3dBm
Bt connection distance	Straight Line and no obstacles distance 0-15M
Infrared Parameter	
Operating Voltage	DC 3V
Remote Distance	Straight Line and no obstacles distance 0-10M

Warm Tips

- ▲ Please clean the surface before stick on the strip and make sure that the paste is successful by one time, otherwise, the stickiness will become weak after repeated use, and you need to add back glue again;
- ▲ Please don't stick the lights to the metal surface that conductive, it may cause a short-circuit on the strip lights;
- ▲ Don't let them on the spool when you test them for more than 2 minutes, they need to dissipating heat;
- ▲ The ventilation must be ensured, these lights need an excessive amount of airflow for cooling.

Notes

1. If you can't search your Bt device for a long time, please enter your phone "setting" and connect again;
2. If you can't connect to the device for a long time or other abnormal, please close the APP, then try to restart;
3. Do not put the product in closed lampshade and keep away from liquid, heat and fire;
4. Keep using it under the power supply of 24V DC, 50-60Hz;
5. Please make sure using a certificated and safe socket;
6. Keep this product out of the reach of children to avoid accident;
7. Do not disassemble the product by yourself to avoid danger;

Customer Service

Please contact us if there are any questions about our products, we will get back to you within 24 hours.
