

Guangzhou Xaircraft Technology CO., LTD

Date: 9/16/2026

To Whom It May Concern,

We hereby declare that the product contains a 4G cellular module with the following certifications:

- **FCC ID:** XMR201903EG25G
- **IC:** 10224A-201903EG25G

However, the above-mentioned module is used solely as a processing/control component (MCU) within the host device.

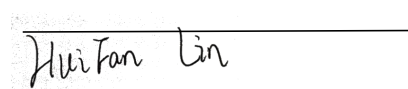

The cellular RF functions of the module are permanently disabled and are not utilized in the final product. No antenna is connected to the module, and no RF transmission capability associated with the module is exposed or accessible in the host device.

Therefore:

1. The 4G cellular functionality of the module is not operational in the final product.
2. No cellular antenna is installed or connected to the module.
3. The module does not transmit or receive any RF signals during normal operation.
4. The certified RF functions associated with FCC ID XMR201903EG25G and IC 10224A-201903EG25G are not used in this product.

Based on the above implementation, the module serves only as a non-transmitting processing component, and its RF capabilities are not utilized in the host device.

Should you require any additional information, please feel free to contact us.
