Dear Sir or Madam;

This Digital radio was designed to operate in the frequency bands 410-470 MHz. To aid equipment authorization in other countries that accept the United States FCC for Certification. For the FCC's Rule Part 90, this radio is used in systems by Federal and Public Safety agencies including Police, Fire, and Emergency Medical Services, etc., as indicated in the table below. Equipment programming is the responsibility of Authorized Service Personnel. Also, the radio complies with 47 CFR Part 90.203(e) in that the operator cannot directly program the transmit frequencies using the normally accessible external controls. The equipment shall operate only on authorized channels which have been preset by the manufacturer, equipment supplier, service technician or maintenance personnel, the frequency of modification and alteration must be carried out using professional procedures. The procedure for making the modification and altering the frequency program is not available to the user of the equipment.

Per the FCC's KDB 634817 guidance, as an alternative to listing the exact frequencies, we acknowledge that it is a violation of the FCC Rules if this device operates on unauthorized frequencies.
