Replacement of a battery with an incorrect type can defeat its safeguard (e.g., for certain lithium battery types). Disposing of a battery in a fire or a hot oven or physically crushing or cutting it can lead to explosions. Leaving a battery in an environment with extremely high temperatures can cause explosions or the leakage of flammable liquid or gas. Using a battery in an environment with extremely low air pressure may result in explosions or flammable liquid or gas leakage. There is a risk of fire or explosion if the battery is replaced with an incorrect type. Avoid using the battery in extremely high or low temperatures and low air pressure at high altitudes during use, storage, or transportation.

*The above data is provided by the Baseus Lab, actual use will vary depending on the specific circumstances.

EN

The power delivered by the charger must be between minimum 2.5 Watts required by the radio equipment, and maximum 5 Watts in order to achieve the maximum charging speed.

DE

Die vom Ladegerät bereitgestellte Leistung muss zwischen dem Minimum, 2,5 Watt, die das Radio erfordert, und dem Maximum, 5 Watt, liegen, um die maximale Ladegeschwindigkeit zu erreichen.

ES

La potencia suministrada por el cargador debe ser, como mínimo, de los 2,5 vatios requeridos por el equipo de radio y, como máximo, de 5 vatios para alcanzar la velocidad de carga máxima.

FR

La puissance délivrée par le chargeur doit être comprise entre un minimum de 2,5 watts, requis par l'équipement radio, et un maximum de 5 watts afin d'atteindre la vitesse de charge maximale.

ID

Daya yang dihasilkan oleh pengisi daya wajib antara minimum 2,5 Watt yang dibutuhkan oleh peralatan radio, dan maksimum 5 Watt untuk memperoleh kecepatan pengisian daya maksimum.

IT

La potenza erogata dal caricabatterie deve essere compresa tra i 2,5 Watt minimi richiesti dalla strumentazione radio e i 5 Watt massimi per ottenere la velocità di ricarica massima.

JP

最大充電速度にするには、充電器からの供給電力は無線機器に必要な最低2.5ワットから最高5ワットの間でなくてはなりません。

KR

충전기에서 공급되는 전력은 무선 장비에 필요한 최소 2.5 와트에서 최대 5 와트 사이이며 최대 충전 속도를 얻을 수 있습니다.

NL

Het vermogen dat door de oplader wordt geleverd, moet liggen tussen een minimum van 2,5 Watt als benodigd door de radioapparatuur en een maximum van 5 Watt om de maximale opladingsnelheid te bereiken.

PL

Moc dostarczana przez ładowarkę musi wynosić od minimalnie 2,5 watów (wymaganej przez urządzenie radiowe) do maksymalnie 5 watów (umożliwiającej osiągnięcie maksymalnej szybkości ładowania).

PT

A potência fornecida pelo carregador deve estar entre o mínimo de 2,5 Watts exigido pelo equipamento de rádio e o máximo de 5 Watts para atingir a velocidade máxima de carregamento.

RU

Для достижения максимальной скорости зарядки, а также согласно требованиям к радиооборудованию, мощность зарядного устройства должна составлять от 2,5 Вт до 5 Вт.

TR

Sarj cihazının sağladığı güç, maksimum sarj hızını elde etmek için radyo ekipmanının gerektirdiği minimum 2.5 Watt ile maksimum 5 Watt arasında olmalıdır.

UA

Для досягнення максимальної швидкості заряджання потужність зарядного пристрою повинна бути не менше 2.5 Вт (мінімальна потужність, необхідна для радіоблагодання) і не більше 5 Вт.

VI

Công suất do bộ sạc cung cấp phải nằm trong khoảng từ mức tối thiểu bắt buộc dành cho thiết bị vô tuyến là 2.5 Watt đến mức tối đa để đạt được tốc độ sạc tối đa là 5 Watt.

中文

充電器提供的功率必須介於無線電設備所需的最低 2.5 瓦與最大 5 瓦之間，以便達到最大充電速度。

CZ

Aby bylo dosaženo maximální rychlosti nabíjení, výkon dodávaný nabíječkou musí být v rozmezí minimálně 2,5 W požadovaného rádiovým zařízením a maximálně 5 W.

HU

A töltő által leadott teljesítménynek a rádióberendezés által megkövetelt minimum 2,5 watt és maximum 5 watt között kell lennie a maximális töltési sebesség eléréséhez.

ID

Untuk memperoleh kecepatan pengisian daya maksimum, pengisi daya untuk peralatan radio wajib menghasilkan daya minimum 2,5 Watt dan maksimum 5 Watt.

RO

Puterea furnizată de încărcător trebuie să fie între 2,5 W necesari echipamentului radio și 5 W pentru a atinge viteza maximă de încărcare.

SE

Effekten som laddaren levererar måste ligga mellan minst 2,5 Watt som radioutrustningen kräver och högst 5 Watt för att uppnå högsta laddningshastighet.

2.5-5 W

Safety Instructions

- Avoid dropping.
- Do not disassemble.
- Avoid extreme temperatures.
- Use original or certified cables.
- Do not wear the product while charging.
- Do not use any corrosive cleaner or oil to clean.
- Do not use the product outdoors during thunderstorms.
- Keep out of the reach of children. The product contains small parts which may be a choking hazard.
- The battery shall not be exposed to excessive heat such as sunshine, fire or the like.
- Do not use the product in environments with too high or too low temperatures, and never expose the product to strong sunshine or very wet environments.
- Ensure there is no liquid, sweat or water on the charging port when charging.
- Refer to your user manual for your earphones' waterproof level and follow the corresponding instructions.
 - For IPX4: Do not expose earphones to dripping or splashing water.
 - For IPX4, IPX5 and IPX6: Do not submerge earphones in water.

Hearing Safety

- To avoid hearing damage, do not listen for extended periods at high volume.
- Do not turn the volume so high that you're unable to hear your surroundings.
- Do not use earphones while driving.
- You should use caution or temporarily discontinue use in potentially hazardous situations.

The product generates stronger permanent magnetic fields that could cause interference with cardiac pacemakers, implanted defibrillators (ICDs) and other implants. Always maintain a distance of at least 3.94"/10 cm between the product component containing the magnet (earbuds and charging case) and the cardiac pacemaker, implanted defibrillator, or other implant.

Declaration of Conformity

Shenzhen Baseus Technology Co., Ltd. declares that the product is in compliance with Directive 2014/53/EU. The full text of the EU declaration of conformity is available at the following internet address:
https://support.baseus.com/manual-download/compliance

Notice

This product complies with the radio interference requirements of the European Community.

This symbol indicates that this product shall not be treated as household waste. Instead, it shall be handed over to the applicable collection point for the recycling of electrical and electronic equipment. Follow local rules and never dispose of the product or batteries with regular household waste.

FCC Statement FCC ID : 2A482-A0102F

This product complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses, and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Radiation Exposure Statement

The product has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction.

The following importer is the responsible party.

Company Name: BASEUS TECHNOLOGY (US) INC
Address: 421 S BROOKHURST ST SUITE 1312
ANAHEIM, CA 92804
Telephone: 6145412699

IC NOTICE TO CANADIAN USERS

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions:

- (1) This device may not cause interference.
- (2) This device must accept any interference, including interference that may cause undesired operation of the device.

L'émetteur/récepteur exempt de licence contenu dans le présent appareil est conforme aux CNR d'Innovation, Sciences et Développement économique Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

- (1) L'appareil ne doit pas produire de brouillage;
- (2) L'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement.

CAN ICES-3 (B)/NMB-3 (B)

This Class B digital apparatus complies with Canadian ICES-003.

(Cet appareil numérique de la Classe B conforme à la norme NMB-003 du Canada).

Radiation Exposure Statement
Déclaration d'exposition aux radiations

The product complies with the Canada portable RF exposure limit set forth for an uncontrolled environment and is safe for intended operation as described in this manual.

Le produit est conforme aux limites d'exposition pour les appareils portables RF pour les États-Unis et le Canada établies pour un environnement non contrôlé.

Statutory Consumer Rights

For consumers, who are covered by laws or regulations in their country of purchase or, if different, their country of residence, the benefits conferred by Baseus's contractual warranty are in addition to all statutory rights and remedies arising from applicable laws and regulations.
