## 2 How to wear it

In order to achieve the best sound quality and find the most comfortable positioning, please select the correct ear adhesive. Available earflap sizes include Small, Medium and Large.

Proper ear adhesive should feel comfortable and reduce ambient noise.

## 3 How to use it

Music Mode:

Press the Multi-function Button to Play and Pause.

Press "+" to increase the volume; continue pressing "+" for more than 2 seconds to switch to the next song.

Press "-" to decrease the volume; continue pressing "-" for more than 2 seconds to switch to the previous song.

If you receive a call while music is playing, press the Multi-function Button to pause and answer the call; press it again to hang up and the music will resume.

Call Mode:

Press the Multi-function Button to answer and hang up.

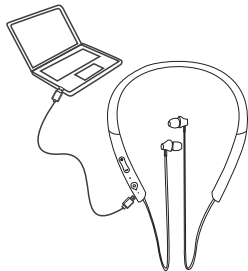

Double click the Multi-function Button to redial the last call.

Continue pressing the Multi-function Button for 2 seconds to refuse an incoming call.

## 4 How to charge it

Insert the charging line into the charging port. It will take around 2 hours to fully charge the headset. If another charger is applied for charging, please confirm that its voltage is 5V1A. Please do not apply chargers with voltage that are higher than that; otherwise, the headset's performance could be compromised.

Some operations may be slightly different due to the variances in your mobile phone's brand and format. If you experience any problems or have any questions, please do not hesitate to contact for help.

## FCC WARNING

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

The device has been evaluated to meet general RF exposure requirement. The device can be used in portable exposure condition without restriction
