PACKAGE LIST

IMPORTANT NOTES

- Register your product on tranya.com to get an EXTRA three-month warranty for free.
- Before using the X2 wireless earbuds, please charge both the case and earbuds.
- If both earbuds don't sync together, please reset the earbuds.
- To avoid damaging the earbuds, please use the original charging cable provided by manufacturer for charging, and choose USB port of computer or regular brand mobile phone charger which is in accord with 5V voltage, 100mA~1A or less than 100mA~1A current to charge.
- If the sound becomes low without control, please use tweezers to take out/remove the net inside the earbuds.

HOW TO RESET THE EARBUDS

- Turn off the earbuds
- Long press and hold the MFB for 8 seconds until the lights blink 3 times
- Rest successfully (Note: the pairing record will be automatically removed after reset)

FAQ

Q: Why does signal interruption occur in some places, such as along the railway and the airport?

A: There are usually lots of underground cable lines along the places mentioned above, which might cause electromagnetic interference and result in the signal interruption.

Q: My earbuds don't charge, what can I do?

A: Please try to follow below steps:
 1. Clean the charging port 2. Change a Type C cable to see whether it works

FAQ

Q: Why my earbuds can't connect to my phone?

A: Our earbuds will automatically connect to the last-paired device for convenient using. Pls make sure you have turned off the bluetooth function of your last-paired device before changing a device to connect with. If still doesn't work, please contact our support team for help.

Q: Will the Bluetooth mouse cause the signal interference?

A: Perhaps. When your Bluetooth mouse and earbuds are connected to the same device, it might happen.

FCC statement

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.

Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement in portable exposure condition without restriction.

Déclaration d'exposition aux rayonnements

L'appareil a été évalué pour répondre aux exigences générales d'exposition aux RF dans des conditions d'exposition portatives sans restriction.

ISED statement

English:

This device contains licence-exempt transmitter(s)/receiver(s) that comply with Innovation, Science and Economic Development Canada's licence-exempt RSS(s). Operation is subject to the following two conditions: (1) This device may not cause interference. (2) This device must accept any interference, including interference that may cause undesired operation of the device.

French: Cet appareil contient des émetteurs/récepteurs exempts de licence qui sont conformes aux RSS exemptés de licence d'Innovation, Sciences et Développement économique Canada. L'exploitation est soumise aux deux conditions suivantes : (1) Cet appareil ne doit pas provoquer d'interférences. (2) Cet appareil doit accepter toute interférence, y compris les interférences susceptibles de provoquer un fonctionnement indésirable de l'appareil.

This device meets the exemption from the routine evaluation limits in section 2.5 of RSS 102 and compliance with RSS 102 RF exposure, users can obtain Canadian information on RF exposure and compliance.

cet appareil est conforme à l'exemption des limites d'évaluation courante dans la section 2.5 du cnr - 102 et conformité avec rss 102 de l'exposition aux rf, les utilisateurs peuvent obtenir des données canadiennes sur l'exposition aux champs rf et la conformité.

This equipment complies with Canada radiation exposure limits set forth for an uncontrolled environment.
Cet équipement est conforme aux limites d'exposition aux rayonnements du Canada établies pour un environnement non contrôlé.

The device has been evaluated to meet general RF exposure requirement. This equipment should be installed and operated with minimum distance 0mm between the radiator & your body. L'appareil a été évalué pour répondre aux exigences générales d'exposition aux RF. Cet équipement doit être installé et utilisé avec une distance minimale de 0 mm entre le radiateur et votre corps.
