Dear Sir or Madam:

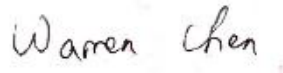

The chip NRF52832 installed in our product KeyPal Wallet (model name: KeyPal Wallet KP1), which support BLE(1Mbps), BLE(2Mbps), ANT, NFC, 2.4G proprietary functions. But for the product, it only activates BLE 1Mbps, the other functions are disabled by using the software.

Please contact me if there is need for any additional clarification or information.

Best Regards,

Sincerely Yours,

Signature:
