

Size: 71*90mm

3-in-1 Wireless Charging Station Alarm Clock

User Manual

Product Introduction

- Fast Wireless Charging: Built-in high-speed charging chip in a compact, stylish design.
- Phone Compatibility: Works with all Qi-enabled phones, including iPhone 12 and newer.
- MagSafe Phones: For best results, charge without a case.
- Using a Case: If a case is needed, make sure it has a magnetic alignment feature that matches your phone's magnetic position.
- Optimal Charging Distance: Keep your phone within 0.08 inches (2mm) of the charging area.
- Other Wireless Phones: Using a magnetic case can help improve charging efficiency.

Product Outline

Applicable Devices

1. Devices with a built-in wireless charging receiver (supports quick or standard charge depending on the device).
 2. Devices with an external wireless charging receiver.
 3. Devices with a wireless charging receiver inside a protective case.
- Note:** All devices must be Qi-compatible.

Instructions Charging

1. Connect a device to the USB-C port of the product. The green light will turn on, indicating standby mode.

2. When a phone or TWS device (Earbuds Case) is charging, the corresponding indicator light stays blue. When fully charged, the blue light remains on.
 3. When a watch is charging, the indicator light does not change.
 4. If the blue light flashes, a phone or TWS have foreign object may be detected.
- Note:** If the watch is low on power, it will charge more slowly. It is recommended to charge when battery level is around 10%. Full charging may take up to 1 hour; please be patient.

- Output 2 (TWS – wireless earbuds): 3W
- Output 3 (Watch): 2W
- Input: 5V/3A, 9V/3A
- Input Power: 27W (MAX)
- Size: 6.38 × 3.82 × 1.61 in (162 × 97 × 41 mm)
- Weight: 9.76 oz (276.5 g)

Standard Accessories

- 1* C-C Data Cable
- 1* 3-in-1 Wireless Charging Station Alarm Clock
- 1* User Manual

FCC STATEMENT :

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(1) This device may not cause harmful interference
(2) This device must accept any interference received, including interference that may cause undesired operation.
Warning: Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
Reorient or relocate the receiving antenna.
Increase the separation between the equipment and receiver.
Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
Consult the dealer or an experienced radio/TV technician for help.

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.
