

SJ-107

Instruction Manual

**Ultra Slim 3-in-1 5000 mAh
Wireless Power Bank w/ Digital Display**

Product Overview

Package Contents

- Power Bank
- USB-C to Type-C Cable
- Instruction Manual

■ Power Bank Instructions

1. Charge the Power Bank

Attach the included USB-C cable to the USB-C input port.
Connect the other end of the cable to a computer USB-C port or a USB-C wall adapter.

Display Indicators (Power Bank Charging)

- The digits on the digital display will flash while the power bank is recharging.
- The display will show 100 when the power bank is fully charged.

2. Charge Your Device (Wireless Charging)

Place your Qi-enabled device on the charging surface.

Display & LED Indicators (Wireless Charging)

- The digits on the digital display will stay solid while the device is charging.
- If the LED is flashing, the device is not compatible or something is interfering with the charging process.

- Capacity: 5000mAh 3.7V
- Input-Type-C: 5V/3A, 9V/2A, 12V/1.5A
- Output-Type-C: 5V/3A, 9V/2.22A, 12V/1.67A 20W max
- Wireless Output-Phone: 5W/7.5W/10W/15W max
- Wireless Output-Watch: 2.5W max
- Wireless Output-Earbuds: 3W max
- Max Power: 15W (Qi-compatible)

■ Safety & Care Instructions

- Use only between 32°F–115°F (0°C–45°C).
- Do not overcharge — remove your phone once it is fully charged.
- Keep the product dry and avoid exposure to moisture or liquids.
- Do not disassemble the device or use it with damaged parts.
- Remove phone attachments (metal plates, magnets, thick cases) before charging, as these can reduce charging efficiency and may cause overheating.
- Care: Wipe clean with a soft, dry cloth.

Do not use water or cleaning agents.

■ FCC Notice

This device complies with Part 15 of the FCC Rules.

- FCC ID: 2A4C5-SJ-107A

FCC Warning:

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

Caution: Any changes or modifications to this device not explicitly approved by manufacturer could void your authority to operate this equipment.

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 0cm between the radiator and your body.
