One Year Warranty: :Parts and Labor. Please email customer support to claim warranty
Customer Support: Support@techsmarterusa.com

Specifications:

Capacity: 20000mAh

⚡ TS™ Input: 5V/2.5A, 9V/2A

⚡ TS™ Output: 5V/3A, 9V/2A, 12V/1.5A

⚡ TS™ Output: 5V/3A, 9V/2A, 12V/1.5A

Wireless Output: 5V/1A, 9V/1.12A

Micro USB Input: 5V/2A, 9V/2A

Product Dimensions: 5.62 x 2.9 x 0.93 in

How to Use

Switch

Use of switches

Press the switch once to turn on the product, the battery indicator will light up. Then it is in the standby state and other devices can be charged.
In the power on state, press the switch twice continuously, or press and hold the power button for 5 seconds to turn off the power.

Tips: In standby state, if you do not perform other operations, it will automatically shut down after about 20 seconds. If you need to use it again, please press the switch again.

Indicator

Power Rate Indicator

The battery indicator is steady blue.

Wireless Charging Status Indicator

Green light on, wireless charging.
Red light on, wireless charging is standby.
Red light and the **green** light flashes alternately, wireless charging is abnormal.

Wireless Charging

Please put the single-row suction cup and mobile phone's camera face up, as shown in the figure

For wireless charging, to charge the device more efficiently, align the wireless charging area of the product with the wireless charging receiving area of the device.
For most mainstream models, this product ensures that the camera is not blocked during use.

When the product is out of power or low battery, then you need to charge the product. You can use the standard USB charging cable with Micro USB connector to connect this product, and plug the USB A into a 5V2A charging device such as a car charger, household appliances, etc. to charge the product.

1. Insert the USB charging cable USB A end into Output.
2. Plug the other end of the cable into a terminal such as a mobile phone.
3. Press the switch button and the power is discharged to charge the terminal such as a mobile phone.

FCC Statement

Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help

This device complies with part 15 of the FCC rules. Operation is subject to the following two conditions (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.
