WIDE VIEW™ 2.0

digital color video monitor

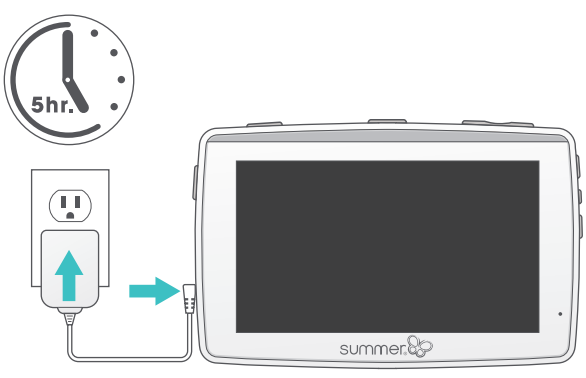
wide view · talk-back to baby · zoom · night light

Thank you for purchasing the Wide View 2.0™ Digital Color Video Monitor by Summer Infant. This quick start guide will illustrate the few simple steps to get your device up and running.

SET-UP 1

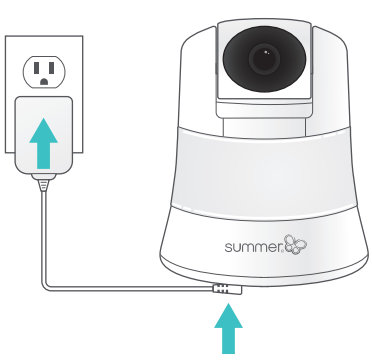
Charge the Handheld

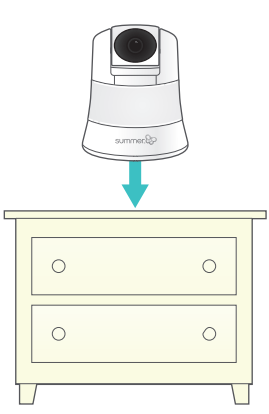
Charge for 4-5 hours.



Install the Camera

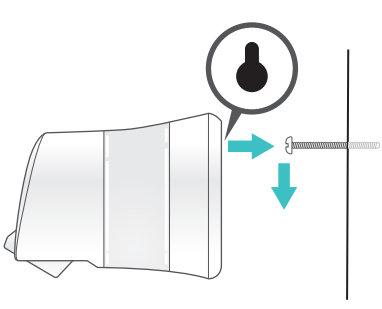
Plug in camera. Place camera on a flat surface, such as a bureau or shelf or mount the camera on a wall using the screw and wall anchor provided.





tabletop

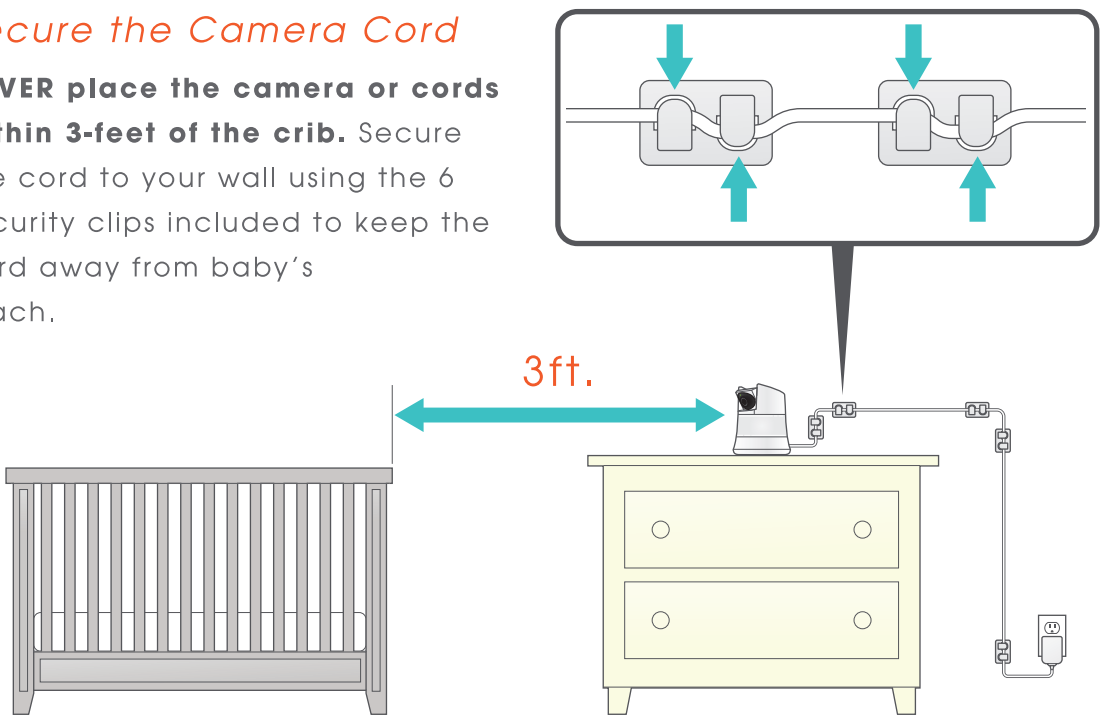
or



wall mount

Secure the Camera Cord

NEVER place the camera or cords within 3-feet of the crib. Secure the cord to your wall using the 6 security clips included to keep the cord away from baby's reach.



Read all warnings prior to using this product.

⚠ WARNING

STRANGULATION HAZARD: Children have strangled in cords. Keep this cord out of the reach of children (more than 3 ft. (0.9m) away).

Power on the Camera and Handheld

Press the ON/OFF/Nightlight button on the **camera** and hold for 3 seconds. A green light will appear near the lens.

Press and hold the power button on the **handheld** unit for 3 seconds. The handheld will automatically sync with the camera. *(The handheld unit and the camera are paired at the factory for privacy reasons. If the handheld and camera are not paired with each other for any reason, see pairing section in the menu guide.)*

Congratulation You are now ready to use your Wide View 2.0™ Digital Color Video Monitor!

USING THE HANDHELD 3

Nightlight

Press the nightlight button on the handheld to activate the soft glow nightlight on the camera. Press the button again to turn the nightlight off.

The nightlight can be turned on or off from the camera by pressing the ON/OFF/Nightlight button.

Zoom

Press the zoom button to magnify the screen. Press the button again to zoom out.

Talk-back

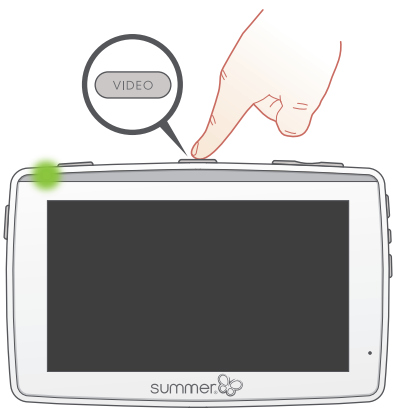
Press and hold the talk-back button to activate the talk-back feature. Release the button to end talk-back mode.

Sound Activated Lights

The LED light bar on the top of the handheld will light up as it picks up noises. Softer sounds will light up the green LEDs. Louder noises will light up the red LEDs.

Video On/Off

Turn off the handheld's video by pressing the VIDEO button. The screen will go dark. This feature allows you to preserve battery life when not plugged into A/C adapter. The audio feature will remain activated allowing you to monitor sounds. Press the button again to resume video monitoring.



For understanding Menu features including: adjusting brightness, scan, select camera, delete camera, pair, and exit menu, plese refer to the user's guide.
