Specification

Model: TS-WR01US00

Ratings: 15A 125V~ 60Hz 1875W MAX

Total DC Output: 35W

IMPORTANT SAFETY INSTRUCTIONS

All information is sourced from Tessian Laboratory, and Tessian Laboratory reserves the final interpretation rights. Please follow the instructions manual strictly to ensure safety.

1. Use only indoors.

2. Do not exceed rated power.

3. Do not disassemble or modify it by yourself.

4. Disconnect power strip from power source before servicing any equipment connected to the power strip.

5. Do not drag the power cord when plugging or unplugging to prevent the risk of short circuit, electric leakage, or fire.(If the product has a power cord.)

6. Always turn off the power before removing the power plug from the socket.

7. Stop using the product immediately if there are signs of sparks, poor contact between the plug and socket, or loose or tight plug pins.

8. After the surge protection function is failed, the product no longer protects against lightning, please pay attention to protect your devices. (If the product has surge protection.)

9. This product does not convert voltage. Please ensure that your devices match the local supply voltage.

10. Do not stick them one after the other.

11. Do not plug in any plug-in devices.

12. Do not operate covered.

13. The product's operating temperature is -5°C to 25°C.

FCC Warning

This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one

or more of the following measures:

—Reorient or relocate the receiving antenna.

—Increase the separation between the equipment and receiver.

—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.

—Consult the dealer or an experienced radio/TV technician for help.

Note:

The Grantee is not responsible for any changes or modifications not expressly approved by the party responsible for compliance. Such modifications could void the user's authority to operate the equipment.

FCC Radiation Exposure Statement:

This equipment complied with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

WARRANTY

18-month limited warranty
