Charging: Red Light ON
Full Charged: Light OFF

*Notice

1. When playing music intermittently or shutdown automatically, please charge the headphones in time.
2. The headphone is designed to automatically power off while it is being charged. Therefore, it is recommended to turn off the headphone before initiating the charging process. This will ensure a smooth and efficient charging experience.

Problems or Questions	Solutions
How to connect to 2 devices simultaneously?	1) Pair with your first device 2) Turn off the Bluetooth on the first device, then pair with the second device 3) Turn on the Bluetooth on the first device to connect again 4) Now your headphones are connected to the 2 devices at the same time
What type of device is compatible?	The headphones are compatible with all devices that support Bluetooth or 3.5mm plug cables. A wireless transmitter (not included) needs to be prepared when connected with a non-Wireless enabled TV/PC
