Precautions

Please read below to avoid any malfunction to the unit:

- If you are not a technician do not try to dismantle the diffuser to repair it. Contact the seller if repair is necessary.
- Do not turn power on when the tank is empty.
- Do not touch the atomization plate.
- Clean regularly as per Maintenance instructions to avoid malfunction.
- Always unplug before maintenance.
- For hygiene reasons, after use, pour out the remaining water from the tank and wipe with a clean dry cloth.
- Only use the measuring cup to add water into the tank, do not fill water directly from the sink.
- Do not let mist come in direct contact with furniture, clothing, walls, etc.
- Keep out of direct sunlight.
- Always keep on a hard, stable, flat surface. Do not place on a towel, carpet or any other unstable surface.
- Keep away from electronic equipment, such as TV and Audio equipment.
- Wait 60 minutes between uses to avoid damage to the atomization piece.
- Do not use sparkling water. Only use tap water or mineral water.
- Never move product when it is working.
- Do not touch any part of the product with wet hands.
- Keep away from pets and small children.
- If the power cord is smoking or burning, unplug immediately!

Aroma Diffuser

Maintenance

After using 3 days, please clean the product as follow:

1. Unplug the unit and remove cover.
2. Pour out any remaining water from the tank.
3. Add a small amount of warm kitchen detergent to clean, use swab to wipe it gently, and then use cleaning cloth to dry it lightly.
4. Refer to the following pictures, to avoid water flow into the air outlet, pour off water abide by the left picture, not the right one.
5. Do not use other acids or enzymes detergent, as this may give off poisonous gas or cause malfunction.

Note: Be sure to use a mild detergent.

## FCC STATEMENT

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) this device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

Changes or modifications to this unit not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

This device and its antenna(s) must not be co-located or operation in conjunction with any other antenna or transmitter.

### Radiation Exposure Statement

The device has been evaluated to meet general RF exposure requirement in portable exposure condition without restriction.
