Solder Board-Component View 4	 A photograph showing a small, rectangular, silver-colored component (likely a battery or capacitor) soldered onto a green printed circuit board (PCB). The component is positioned next to a black ruler with white markings, indicating its size. The component has two red wires soldered to its bottom edge. The PCB is placed on a blue textured surface. The component's label reads: JPY 303040 3.7V, 320mAh 202111.
Antenna View	 A photograph showing the back of a green PCB with various components. A red box highlights a small, rectangular, yellowish component labeled "BT Antenna". The PCB has several other components, including a large black component with a white label "3777A-1018-211214" and a small black component with a white label "AXHY-M8072157-V1.4 20211214". The PCB is placed on a blue textured surface.
