Product Parameter

Product Parameter
Model No.: MINISO DS-1338
Bluetooth specification: Bluetooth V4.1 + EDR
Transmission distance: ≤ 10M
USB charging power supply: DC 5V ⎓ 1A
Built-in battery: lithium battery

Output power: 4W x 2
Frequency response: 100HZ - 18 KHZ
Sensitivity: 80 db ±2 db
Signal to noise ratio: ≥55 db
Net weight: 910 g
Product size: 450 X 59 X 62.5 MM

Composition

1. Speaker*1 2. USB power cord*1 3.Certificate*1 4.Manual*1

Connection Direction

Common Function Direction

Bluetooth Pairing and Connection:

1. Rotate clockwise to power on the volume button, the Bluetooth will be activated and flash, which means it enters into search and pairing mode; the speaker is under standby mode.
2. Open the Bluetooth device settings and search (Note: Different Bluetooth device has diverse ways to activate Bluetooth function). Your Bluetooth will search and find "MINISO DS-1338", and it will select and connect. If it is required to input password, please enter 4 digits of "0000", and press to confirm; wait to be connected! The Bluetooth device will make sounds if it is successfully connected. And the blue indicator light will become solid; the whole pairing process takes about 1 minute (the pairing time will differ as different Bluetooth devices). The match and pairing procedure needs to be done between your Bluetooth device and the speaker only for the first time use. And the speaker will automatically connect the previously-paired device.
3. When connected successfully, you can play the music on the Bluetooth device.
4. Hands-free function: If connected with smartphone, the speaker will make sounds if there is an incoming call. Short press " ⏯/☎ " button to answer the call, and you can talk directly by the speaker. When the call is in progress, short press " ⏯/☎ " button to hang up the call and long press " ⏯/☎ " button to reject the call.
5. Bluetooth automatic connection function: When Bluetooth connection is successful, but it reaches out of the valid distance, the speaker can be automatically connected if it is back to the effective distance in 10 minutes.

External Audio Input Function
When the speaker is on, insert the external device (such as: mobile phone, computer, MP3 audio output device)into "AUX", the speaker will automatically switch to external audio input mode and the red LED indicator light keeps on.Just play the music!

USB disk play
When the speaker is on, insert the USB flash drive into the big USB socket, the speaker will automatically switch to read U disk mode and automatically play music.

TF Card Play
When the speaker is on, insert TF card into TF booth, speakers will automatically switch to read TF card mode and automatically play music.

When the battery is less than 10%, the sound makes a warning tone, please recharge in time. When the battery is lower than 3%, the speaker will automatically power off.

Indicator light status
Bluetooth mode: during connected status, the blue light keeps on;
Audio input mode: the red light keeps on;
U disk mode: blue light blinks
TF card mode: the red light blinks
Finish Charging: the red light extinguish

FCC Statement:
This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation.

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
—Reorient or relocate the receiving antenna.
—Increase the separation between the equipment and receiver.
—Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
—Consult the dealer or an experienced radio/TV technician for help.
Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter.
