Antenna Specification Document

Product Name: Pulling Rod Antenna

Serial Number	Inspection items	Technical requirements
1	Materials	Single core wire diameter is 0.5MM, with insulation 1.05MM.
2	Size	Outer diameter: 5MM, Linear length: 250MM
3	Number of rounds	18N, insulating material - black PVC material
4	Temperature	The maximum temperature of the vinyl plastic is 120 degrees.
5	Input impedance	50 Ω
6	Frequency range	315MHZ-433MHZ
7	Standing wave ratio	≤1.5
8	Antenna gain	2dBi
